CASE STUDY | DESNZ

DESNZ.

At the Department for Energy Security and Net Zero (DESNZ), we built a near real-time Data Management System to quickly and securely capture and enrich a vast amount of COVID-19 business support grant and Green Homes Grant data collated from more than 300 Local Authorities. This platform enabled DESNZ to harness high-quality data, generating insights to more accurately assess the impact of schemes and support future policy decisions.

Department for
Energy Security
& Net Zero

The data management system at DESNZ lays the foundations for a great data service. It brings together tech from Microsoft Azure and Databricks to create a platform that not only supports our current needs but will change and grow to match our ever-evolving data journey.
