Cribl™

OUR PARTNERSHIP

Networkology are proud to be a supplier of Splunk and Cribl products and associated Professional Services to the G-Cloud Framework on HM Government Digital Marketplace.

OUR SECURITY CLEARED CONSULTANTS

With decades of industry experience covering multiple IT disciplines our accredited consultants are experts in integrating your data-sources with Splunk and Cribl, within highly regulated environments. This expertise allows us to better understand your requirements and overcome any data handling challenges you may have

OUR APPROACH

As with all Networkology services we pride ourselves on our attention to detail and quality of delivery. Detailed and accurate requirements gathering is key to any successful engagement and ensures that we provide true value whilst efficiently delivering customer solutions

OUR SERVICE

As a Reseller and Accredited Professional Services Partner with both Splunk and Cribl, we are able to help you understand the most appropriate products and modules for your organisation and implement them using Vendor approved best practices. Our log history with G-Cloud and other HM Government frameworks can help with a smooth procurement process, and our expert Professional Services team will deliver vendor approved architecture with rapid ROI for your investment.

OUR VALUE-ADD

When you receive a service from Networkology you aren't just gaining access to individuals. All our consultants have access to the combined technical knowledge of the entire organisation, able to consult, share and contribute with all our other technical specialists.

OUR PRICING

Networkology has a team of Security Cleared consultants who are experts in the Splunk and Cribl products portfolios. They can provide you with the technical knowledge, expertise and support you need.

Details of our pricing can be found in the 'Pricing Document' located under the 'Service Documents' section on Networkology's GCloud Splunk and Cribl services. Alternatively, Search for Networklogy on the HM Government Digital Marketplace for all our services and software.
