StaySafe Lone Worker
App and reporting hub

EcoOnline's Lone Worker pricing scales with your team size. Instead of charging per individual user, we group users into simple bands (e.g., 5–10, 10–15, etc.) so your cost stays predictable as you grow. While we display a price per user for clarity, the correct band rate is automatically applied based on your total number of users—no surprises and no per-user micromanagement.
