Atech

Azure Services

Your Secure and Trusted Solution
to optimized Cloud Services

Atech have been migrating and managing organisations Azure solutions for over ten years and include security at the heart of our clients' experience. Working alongside Microsoft, we use proven methodology to understand existing environments before planning a migration strategy to meet individual organisational objectives that create lasting cloud-first solutions that deliver:

- Optimized costs
- Flexibility and scalability
- Enhanced security
- Governance and Compliance
- Backup, recovery, and failover
- Simplified management and monitoring

Boasting over 100 Microsoft certified experts, we have successfully migrated over 100,000 users to the Azure cloud. Atech are continuously investing in our people and complimentary tools to deliver the best possible experience for your users and business critical applications on your digital transformation journey.

Our trusted Migration framework, following the Microsoft Cloud Adoption Framework:

ASSESSMENT
Using the Azure Migrate Appliance Tool, we will assess your current environments

DESIGN
Through a scoping workshop we will plan the most effective migration schedule
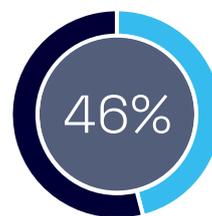

DEPLOYMENT
Managing your migration with minimum impact on users or applications to seamlessly transition you to the cloud

OPTIMISATION
Once the migration is complete, we will perform an optimisation test to evaluate efficiency

## Benefits to a cloud first approach:

46%
increase in developer productivity

20%
reduction in infrastructure costs

86%
less unplanned downtime

37%
reduction in operational costs over a 3-year period

Landing Zone

Atech Azure migration services includes an optimized creation of a Landing Zone which is designed by our experts to configure and deploy a baseline Azure environment, ready for hybrid or full cloud deployment.

Included as standard:

- Azure production-ready environment
- Role based access control
- Security isolation and policy
- Networking
- Cost management
- Azure Backup configured for hub components
- Security and availability monitoring: Log Analytics
- Configuration of user defined routes to control traffic and data flows

Atech Azure Managed Services accelerate digital workplace transformation and streamline operational efficiencies with Managed Services tailored to meet your business needs.

From offloading tasks, to full estate management, we provide complete lifecycle support across your Microsoft Productivity estate.

LIFECYCLE SUPPORT

Managed Services that accelerate your digital workplace transformation with tiered service models that tailor to meet your business requirements

STREAMLINED OPERATIONS

Ensure security, governance and compliance with automated monitoring, reporting, and self-service solutions that accelerate time to resolution.

OPTIMISED INVESTMENT

Continuously evaluating licensing utilisation and organisational change to ensure maximum return on investment through cloud transformation.

Our proven methodology and cloud-first approach means that our Azure Managed Services are predictably reliable to ensure digital transformation and a smooth migration journey.

We follow the Azure Well-Architected Framework and our ability to execute has been audited by Microsoft as shown by the Advanced Specializations we have gained.

Azure Essentials

Maintain control of your estate while partnering with our Cloud Specialists who work alongside your internal teams as trusted advisors – sharing their industry experience, certified expertise and providing established escalation path with Microsoft.

- 24/7 access to online self-help resources such as documentation, knowledge base articles, and community forums.
- Standard response times for critical issues and moderate response times for other issues.
- Assistance with Azure service incidents and management.
- Email support for non-critical issues.

Azure Premium

Focus on your company's core competencies while we support you with ours - SLA-driven operations, certified engineers, proactive monitoring and full-service management of your Digital estate.

- Includes all features of Azure Essentials
- 24/7/365 helpdesk support.
