

Office 365 Security PRICING

Security utilising the 365 license is priced per user device, per month. The managed security service price includes the implementation and management of:

- 🔒 Endpoint Encryption Management
- 🔒 Dark Web Identity Monitoring (1 domain)
- 🔒 Security Awareness Training
- 🔒 Simulated Phishing Attacks - Quarterly
- 🔒 Annual security health check
- 🔒 Email security management
- 🔒 DMARK/DKIM/SPF Setup
- 🔒 Intune Base Security Policy Deployment
- 🔒 Conditional Access Based Policy Deployment
- 🔒 Microsoft Secure Score – validated against your industry average

The cost for the service is dependent on the number of user on the platform. Our standard support pricing is:

Service	Description	Unit of Measurement	Per Unit Cost
Security Support	Full User Support	Per user device, per month	From £6

The correct level of licensing is required, something which Atech will advise on.
