Supply of Service Under G-Cloud  
14 Framework Agreement

HappyWired

## SUPPLY OF SERVICE RATE CARD

The following table lists the consultant types, competencies, and associated day rates.

Rank	Competencies	Hourly Rate
Associate	Completed the graduate program, showcasing proficiency in custom software delivery with a focus on outcome-based solutions. Prioritises client goals over feature-centric development to ensure desired outcomes are achieved.	£125
Mid	Consultant with at least 1 year of demonstrable experience in delivering cloud solutions to a high standard. Creating a positive impact through digital technology, contributing to feature planning and development, adept at handling complex tasks and architecting simple ones.	£132
Senior	Senior consultant with a minimum of 3 years' proven experience delivering cloud solutions at a high standard. Instrumental in driving positive change through digital technology. Expertise in feature planning and development, adept at managing complex tasks and simplifying architectures. Demonstrates leadership in advancing cloud-based initiatives for impactful outcomes.	£145
Lead	Seasoned solution architect with over 5 years of extensive experience leading successful business solution, change management, and modern workplace projects. Demonstrated expertise in delivering end-to-end project, from conceptualisation to implementation. Renowned for driving innovation and delivering transformative outcomes in diverse organisational settings.	£155
Principal	Principal leader renowned for spearheading technology and business transformation initiatives. Recognised as an evangelist for change, with a wealth of experience orchestrating technology and change programs across prestigious organisations.	£175

Please note day rates:

- Are provided on a time-and-materials basis.

- Are exclusive of any Value Added Tax.
- Include Professional Indemnity Insurance.
- Exclude travel and subsistence costs where work is delivered on site (see section 'Travel and Subsistence' for details).
- Exclude mileage allowance (see section 'Travel and Subsistence' for details);
- Are valid for the period of the G-Cloud 14 framework agreement.

## DISCOUNTS

HappyWired will be pleased to provide discounts on these rates on a committed volume of work across an agreed term.

## RETAIL PRICE INDEX

HappyWired reserves the right to review our Supply of Service Rate Card annually (31st March) in line with the Retail Price Index (RPI).

## PAYMENT TERMS

Except where payment terms are specified in the Service Definition Document, payment terms for work undertaken under this supply of service will be as defined in the Terms and Conditions document.

## TRAVEL AND SUBSISTENCE

The following reasonable expenses may be incurred as part of project delivery, with prior written consent from the Client.

**Client is responsible for notifying HappyWired of any expense limits that may apply ahead of work commencing.**

Expenses will be charged at cost. Receipts or proof of expense can be provided on Client request.

Expenses could include, but are not limited to:

- **Hotels and Accommodation** – will be charged where necessary.
- **Mileage** – will be charged at a standard 0.45p per mile from the normal workplace of HappyWired consultant.
- **Trains** – will be charged at cost from the home of HappyWired consultant to client location

- **Taxis** – will be used where necessary and appropriate public transport is not viable
- **Flights** – will be economy for all flights under three (3) hours, premium economy for all flights between three and five (3–5) hours and Business Class for all flights over five (5) hours.
- **Hire Car** – may be used where public transport and/or taxis are not viable.
- **Subsistence** – will be charged at a daily rate of £7.00 (more than 8-hour day), £20 (more than 12-hour day) or £25 (more than 24-hour day where breakfast is provided with accommodation) when working on client site.
