CLOUDSOFT

CLOUD SUPPORT SERVICE DESCRIPTION

DIGITAL OPERATIONAL RESILIENCE READINESS ASSESSMENT

CLOUDSOFT READINESS ASSESSMENT

Accelerated digital change in response to world events has resulted in increasingly complex IT environments and unexpected new levels of fragility.

In response, regulators are (imminently) ramping up demands around operational resilience.

With change only accelerating, how do you tame this complexity, ensure critical service resilience, and meet increasing regulatory demands?

CLOUDSOFT CAN HELP YOU SOLVE THIS PROBLEM.
THE CLOUDSOFT READINESS ASSESSMENT WILL HELP YOU:

Understand why resilience is now a strategic priority

Understand your maturity level aligned to regulatory requirements

Understand what you need to do NOW to meet regulatory requirements

Understand how you can move beyond resilience to anti-fragility

"The ultimate goal should go beyond resilience to antifragility — where the enterprise stands to gain in more uncertain and disrupted times."
*Dave, Aron, Gartner*

CLOUDSOFT READINESS ASSESSMENT

CLOUDSOFT CAN HELP YOU UNDERSTAND YOUR OPERATIONAL RESILIENCE MATURITY LEVELS - HELPING YOU MOVE TO RESILIENCE AND BEYOND THIS IS IMPORTANT BECAUSE:

- Economic, societal and other factors are creating an increasingly uncertain business climate, with enterprises facing a rising tide of risks and uncertainty
- In response, boards want to drive digital deeper into the business, accelerating digitalisation to prepare their enterprises to thrive in a more-volatile business climate
- This drive to transform is increasing IT complexity; which is creating new vulnerabilities and risks
- Businesses must proactively address this - moving not only from risk to resilience - but beyond this to 'Antifragility'

At risk: Unable to sustain/survive in turbulent times

Resilience: Able to sustain/survive some disruptions to a certain level, for a certain period

Comparatively Antifragile: Able to improve/benefit compared with competitors in turbulent times

Antifragile: Able to become stronger and more profitable in turbulent times

Continuous Resilience: Able to sustain/survive disruptions continuously

# CLOUDSOFT READINESS ASSESSMENT

THE DIGITAL OPERATIONAL READINESS ASSESSMENT
CLOUDSOFT 5-STEP ROADMAP

CLOUDSOFT
READINESS ASSESSMENT

1 RESILIENCE - STRATEGIC IMPERATIVE WORKSHOP

2 RESILIENCE MATURITY ASSESSMENT

3 PERSONALISED GAP REPORT AND RECOMMENDATIONS

4 ESTABLISH RISK MITIGATION AND CORRECTIVE ACTIONS

5 DEVELOP METRICS AND TRACK PROGRESS

WORK BREAKDOWN STRUCTURE

Pre-Workshop Call

Introductory call to discuss current state of resilience, business priorities, associated challenges and other initiatives.

Full Day Workshop

A full-day interactive session, which we can run virtually, or face-to-face. Structure of the day will be:
MORNING
Why resilience is now a strategic priority
State of regulation around resilience - FCA, DORA, and more
What this means for you
Dimensions of resilience - the Cloudsoft maturity model
AFTERNOON
Completion of readiness assessment - collaborative discussion

Post workshop Results

On completion of the full-day workshop, Cloudsoft will create a personalised report on your resilience readiness. This will be presented in a half-day session at your convenvience and will include; current resilience observations; details of what you need to do now to address increasing regulator requirements, as well as a roadmap for ongoing resilience maturity

CLOUDSOFT READINESS ASSESSMENT

Cloudsoft Overview

"Cloudsoft is a keynote example of a world-class Scottish cloud computing business"

DIGITAL SCOTLAND, 2022

Cloudsoft are experts in using powerful software and transformational services to help organisations get value from their technology investments and in turn, achieve their digital ambitions faster. We're headquartered in Edinburgh, UK, but wow clients in the public and private sector around the world.

CLOUDSOFT | AMP   Our powerful software

Our flagship AMP software delivers a service and governance lens to orchestrate and govern critical services across hybrid IT environments, regardless of environment or location. This helps maximise value from technology investments, drives down costs and reduces non-financial risks.

CLOUDSOFT | TEMPO   Our transformational services

Our public cloud IT transformation expertise is embedded our Tempo cloud services, helping our clients to transform faster and exploit the benefits of cloud, cost-effectively.

We're an AWS Advanced Consulting Partner with Well-Architected, Immersion Days, Migration Acceleration Program, Microsoft Workloads and DevOps Competencies, a FinOps Foundation Member and a FinOps Certified Service Provider.

Great Place To Work® Certified JUN 2021-JUN 2022 UK
