## 1. Sixworks General Terms and Conditions

All prices are provided exclusive of Value Added Tax, sales tax or similar. Prices are based upon an 8 hour working day, (Monday to Friday) excluding national holidays.

Service prices exclude travel and subsistence expenses will normally be charged at £0.45 per mile, with standard class travel and reasonably priced overnight accommodation (where necessary) charged at cost. SiXworks is able to provide a limit of liability price for T&S for each contract.

All prices are provided exclusive of Value Added Tax, sales tax or similar. Prices exclude travel and subsistence expenses which will be charged at the department's standard mileage rates, with standard class travel and reasonably priced overnight accommodation (where necessary) charged at cost. Prices are based upon an 8 hour working day, Monday to Friday excluding national holidays.

Professional Indemnity Insurance is included in the day rate.

### Models

SiXworks services can be procured on the following models:

- Time and Materials (T&M). T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the SFIA rate card.
- Fixed Price. Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This usually necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing breakdown is available on request and is based upon the day rates shown in the SFIA rate card.

### Discounts and Variations

Discounts may be available on an individual basis. Factors to consider would include duration, location, complexity and volume. The pricing contained within this submission will cover the majority of service requests. However, due to the nature of client specific requirements and the need to create more tailored solutions and commercial proposals, there are a number of factors that can affect price. These will be discussed with customers if the need arises.

SiXworks would be happy to discuss any variations to our standard service and corresponding pricing, based on any specific customer requirements.

## 2. Further Information

If you would like to discuss any aspects of contracting with SiXworks Ltd in the Digital Marketplace, please do not hesitate to contact us at:
