

Data Migration Service

Why use this service

One of the costliest assumptions to make in a Digital Transformation project involving the replacement of software is that the Data Migration is a simple “Lift and Shift”, when in fact it is one of the most common point of failure, adding to delays and cost overruns.

Our team offers:

- 10+ years experience in Extraction, Transformation and Load (ETL)
- Working within wider Digital Transformation and Change Management programs
- Experience of both legacy products and tools developed in-house
- Experience of Public Sector (both Local and Central Government)
- Experience of merger of organisations and integration of systems
- Genuine Agile methodology, where communication and delivery are key
- Delivery to multiple environments (development, testing, training, Live)
- Data Cleansing and Deduplication

The benefits are:

- Data Migration as an integral part of Projects
- Control over the Data Migration risks and costs
- The avoidance of data loss and creation of duplicates
- Ensuring the data remains structured and indexed
- An opportunity for housekeeping, enforcing retention periods
- Effective planning, with Data Discovery and Data Architecture Mapping
- Integrated Extraction, Transformation and Loading
- Hypercare until sign-off and Business As Usual

Creatively Digital

Creatively Digital Ltd, 71-75 Shelton Street, Covent Garden, London, WC2H 9JQ
