PARICO

G-Cloud 14: Service Definition Document

Rapid Agile Prototyping and Proof of Concepts for Cloud Services

Parico help organisations develop rapid prototypes in a fail-fast, fail-early methodology for cloud infrastructure platforms and cloud native applications. Parico can produce rapid prototypes, at pace, across a wide range of cloud technologies. Following agile principles, Parico will work collaboratively, helping customers learn quickly and develop confidence at low cost.

FEATURES

- Collaborative, agile approach focused on delivering value and de-risking ideas early
- Utilising good-practice infrastructure and software design principals for cloud services
- Rapid development of demonstrable prototypes and Proof of Concepts quickly
- Idea and concept generation
- Technology-aware service design designs with users at the heart
- Utilising a fail-fast, fail-early approach for rapid agile prototyping
- Incubation and idea propagation throughout each Sprint
- User-focused testing and iteration with real users engaged throughout
- Detailed roadmap for Alpha, Beta and Live
- Hugely influential with challenging stakeholders and complex environments

BENEFITS

- Provides an understanding of how emerging technologies address user needs
- Establish a working demo outlining potential uses for emerging technologies
- Early stakeholder engagement enables gathering of valuable feedback
- Enables early de-risking of identified risks
- Providing evidence for business case viability
- Enable the engineering team to prioritise wisely based on user-needs
- Support customers to scale quickly and securely
- Enable early-wins and fast feedback through proof of concepts
- Clear understanding of Government Digital Service phases (Alpha/Beta/Live)
- Provision of Security Cleared (SC/DV) cloud architects and engineers

Established in early 2018, our primary goal at Parico is to develop a positive reputation across the defence sector, as a UK SME Technology Disruptor within Public and Private Sector organisations.

At Parico, we're incredibly passionate about our people and encourage the development and growth of our engineering community. Every Parico Rockstar has the freedoms to innovate and develop the next generation of disruptive products and services for our customers.

As an SME, we're able to respond to our customers requests quickly and efficiently, embracing Agile working practices across our entire organisation.
