# About Sisua

We specialise in delivering complex transformation and change. Experts in shaping, mobilising, and delivering change, and recovering change programmes that have lost their way.

We have a relentless focus on outcomes to deliver a lasting impact. Supported by a culture that attracts the best consultants, and allows them to thrive, delivering outstanding work for our Clients.

We also remember that everybody has a choice – we're human and the **people** you want to work with.

Sisua – Getting it done.

Si-su

Finnish  
Noun

1. *Strength of will, perseverance, grit, stamina, determination, acting rationally and with courage - especially in the face of challenges*

Sisua (Si-su-a) - to have the qualities of sisu

# Sisua in action

Here are some of the many highlights that we have delivered for our Clients.

- ▶ Mobilised and delivered the PMO for a £2bn programme of major Capital Projects in the public sector.
- ▶ Drove £750k of savings per annum for a global Life Sciences business through the replacement of legacy enterprise systems with cloud-based services.
- ▶ Delivered a \$23bn divestiture programme for a global FTSE 100 Client impacting 11,000 employees across over 30 countries.
- ▶ Implemented a global call centre solution across 30 countries in Asia Pacific, Europe and the Americas, including infrastructure, operating model, and people change.
- ▶ Led a global legal entity restructuring programme across over 40 legal entities and 25 countries.

## What our clients say

“Sisua has provided high quality and consistent delivery, even through challenging times. They have been instrumental in implementing a step change for our IT Delivery, making a real change which will have lasting impact. I would confidently work with Sisua again, and would recommend them to others.”

TECHNOLOGY DIRECTOR, FRASER GROUP

Our clients rated us 9.5 out of 10 for overall client satisfaction

10/10

Our public sector clients rated us 10 out of 10 for the services we provide and would recommend us to others

9/10

Our life science clients rated us 9 out of 10 for the services we provide and would recommend us to others

10/10

Our retail clients rated us 10 out of 10 for the services we provide and would recommend us to others

# Our Services

We apply hard delivery (project and programme delivery) and soft delivery (change management) to everything we do, shaping, mobilising, and delivering change.

## ► Intervention & Recovery

Diagnosing and turning around troublesome projects & programmes and helping our clients recover and stabilise

## ► Mobilisation & Design

Aiding clients in establishing their portfolios, programmes and projects, building on foundations and designing for success

## ► Delivery & Change

Working shoulder to shoulder with clients to specialise in and deliver their toughest and most critical initiatives

## ► Strategy & Discovery

Guiding clients from the onset of their transformation, fostering strong and enduring foundations for their delivery

# Our Services

Our core services allow us to tackle your most critical initiatives, delivering results where you need it most.

## Strategy & Discovery

## Mobilisation & Design

## Delivery & Change

## Intervention & Recovery

### ► PMO – Driving control, insight and standards

Helping clients to assess how they govern their portfolios and programmes, implement the required controls in a pragmatic way and help to embed and drive these to minimise delivery risk and improve on budget, on time and to scope delivery.

### ► Delivery and Change Management – Leading to get stuff done

Aiding clients in delivering their complex programmes from inception to delivery and post-delivery realisation. We help clients shape, mobilise, deliver and recover their critical initiatives. We bring both the hard delivery elements, using traditional and agile techniques, and the softer change management skills, tools and templates to help embed change in a pragmatic way.

### ► Operating model design and implementation - Designing and setting up for success

We help organisations shape how they should transform by applying structured methods to design their future state.

We work with our clients to drive the process of how to get to the unique answer for them applying project and change management practices to help them define their future and set themselves up for success. We work at the department or portfolio level to help organisations improve how they deliver, but not at the strategic organisational level of how different functions do this.

PMO as a Service

# PMO as a Service

Our PMO service ensures consistency and enforces organisational standards and practices for successful project delivery. Offered as either a Managed Service or Design and Implementation Service, we ensure adherence to a unified approach across all projects/programs, fostering efficiency and reliability in achieving your goals.

## Features

- Incorporates the use of PMO cloud collaboration tools
- PMO Service Led, supporting knowledge transfer and driving capability improvement
- Managed services for governance and control, from portfolio to PMO
- Experience of transforming UK Public Sector bodies
- Establishes a change operating model for the transformation programme
- Transformation Programme design, set up and execution
- Clarity on timescales, resources required and costs
- Tracking of milestones, risks, dependencies, costs and changes
- Takes a structured approach to aligning work across teams
- Digital and Technology enabled transformation strategy

## Benefits

- Long-term embedded PMO experts who improve existing organisational capability
- PMO maturity improvement and creation of a backlog
- Experienced team of Project, Programme Management and PMO professionals
- PMO operating model, resource plan and implementation plan
- Reduced Project and programme risk
- Provides stakeholder assurance
- Enables a well-defined Digital Transformation strategy
- Reduced Project and Programme risk
- Improved delivery and engagement with core teams and stakeholders
- Improved control, governance and transparency

# SISUA

Hei olen Pekka and I am the founder of Sisua and a proud Finn.

I have over 15 years of experience working in high performance companies like IBM and Accenture and with FTSE100 clients like M&S, General Electric, GS, and BP on large scale global projects and programmes.

I worked on some highly complex programmes in both IT and the business and what I saw was serious variability in the quality of delivery.

Many project and programme managers were inconsistent in their approach, commitment and accountability, or were not people that managed to consistently get things done to time, scope and budget.

It was hard to find the people that were truly awesome – who followed through with doing what they said

they would, who were willing to get stuck in when the going got tough.

During my consulting career I always felt we should center on quality and making sure there was always a focus on working with our clients to meet their end goals – even when they changed.

So In 2018 I decided to build a business to bring this consistency and focus on quality delivery to the market. I wanted to create a business that really majored on developing the awesome people that have the perseverance and determination to do the right thing and get things done, whilst being human and working collaboratively with our clients.

That is when Sisua was born.

## What's in a name?

SISUA is a Finnish word, it means strength of will, perseverance, grit, stamina, determination, acting rationally and with courage - especially in the face of challenges.

This typifies the very essence of our business, our people and our culture. It's who we are, how we are and how it will feel to work with us.

Everything in our business is engineered around these principles and it's what makes us different.

SISUA – Getting it done.

# Our Vision

To be the partner of choice to help you execute your critical initiatives and drive your success

# The Sisua Mission

Our aim is to be the consulting company of choice to mobilise, deliver and recover our client's critical projects. We do this by bringing the best talent to challenge what is possible, break obstacles and get the tough stuff done.

# Take Ownership Be Resilient and Thrive

## Sisua Values

At our core, we embody three values:

**"Take Ownership, Be Resilient, and Thrive."**

Taking ownership empowers us to embrace responsibilities and accountability, while resilience helps us bounce back stronger from setbacks.

With these strengths, we do not just survive; we thrive, reaching new heights of success through celebration, innovation, and determination.

Together, these values shape a culture that inspires excellence and fosters a shared commitment to achieving greatness.

# Get in touch

## Pekka Metsaranta

CEO

Pekka founded Sisua in 2018 following over 15 years working with global consulting firms and clients. His ability to identify pragmatic solutions and approaches in truly complex environments has been his hallmark and he continues to help global clients with their biggest challenges. If you would like to talk through any of your upcoming projects or would like to learn more about Sisua, please get in touch.
