# Delivering tomorrow's digital capability today

Peregrine Recruit Train Deploy (RTD) keeps your organisation ahead of emerging technologies. The digital skills curve pushes organisations to make short-term decisions on the delivery of digital transformation programmes.

By sacrificing long-term plans, they risk falling further behind. Staying ahead of change is hard. With Peregrine RTD, you gain the skills you need today, and we continue to train your consultants on rapidly emerging technologies, methodologies, and leadership practices. We assess people for their potential to adapt, learn, and thrive in a setting that demands constant innovation.

## Peregrine is proud to offer Emerging and Specialist Talent for these G Cloud Services:

-  Software Engineering
-  Cloud Engineering & DevOps
-  Testing & QA
-  Cyber Security
-  Architecture
-  Data & AI
-  Project Management & Business Change
-  UX & UCD

### Peregrine Future Talent

Gives you individuals or teams of intensely trained graduates, college leavers, and job switchers in areas including software engineering, data analysis, or change & transformation. We continue to develop them, and after two years you can employ them to build your long-term capability.

### Peregrine Specialist Talent

Provides experienced technologists to help you deliver immediate programmes. You can make them permanent employees after a year. Looking for Security-Cleared professionals? We can help by mitigating costly delays to deliver people with the experience you're looking for now and for the future.

Peregrine Recruit Train Deploy (RTD) builds targeted and tailored training academies to ensure you close digital skills gaps and build future capability. You select, deploy, and retain early-stage talent, experienced technologists, or a combination of both. With this talent system, you maintain control even when budgets and plans change.

Peregrine RTD partners with Home Office to deliver a flexible 350+ strong workforce. Our RTD system has made us central to delivering the Home Office's vision for the future.

Here's what we've helped them to achieve:

**350+**

**Deployed 350+ consultants** across project delivery and technical areas.

**5**

**5 civil service grades** from EO-G6.

**30%**

**Delivered 30% cost savings** over equivalent contractors.

We assess people  
for their potential  
to adapt, learn, and  
thrive in a setting  
that demands  
constant innovation.

## About Peregrine

Peregrine powers large, complex, often regulated organisations in the public and private sectors to redefine how modern enterprises attract, deploy, develop, and retain an inclusive and skilled workforce. Peregrine has two talent systems; Peregrine Recruit Train Deploy and Peregrine RPO, that solve critical talent problems at scale. Customers include BAE systems, Chanel, Smart DCC, Jaguar Land Rover and the UK Government's Home Office and Cabinet Office. Peregrine has a wealth of over 15 years' experience.
