Global Business Consulting

Protiviti Overview

Protiviti is a Global consulting firm found in 2002 that delivers deep expertise, objective insights, a tailored approach, and unparalleled collaboration to help leaders confidently face the future. Protiviti and our independently owned Member Firms provide consulting solutions in finance, technology, operations, data, analytics, governance, risk, and internal audit to our clients through our network of more than 75 offices in over 28 countries. Protiviti has been recognised as one of the Top 15 best firms to work for, Consulting magazine for more than 5 years in a row. It is also One of Fortune magazine's 100 Best Companies to Work for. Protiviti is a wholly owned subsidiary of Robert Half.

Robert Half is a publicly traded company specialising in staffing and consulting services. Our 67 years of experience, reputation for excellence, and industry leadership position allow us to recruit and attract only the most experienced professionals to serve our client's needs. Robert Half is a member of the S&P 500 index. Robert Half once again was named to Fortune® magazine's "World's Most Admired Companies."

We partner with Robert half to offer tailor-made for organisational change. Our unique flexible delivery model allows unmatched options and value points to our customers, including solution-based consulting, specialised project staffing, or a blend of the two through a customisable approach.

Protiviti's Cloud Solutions provide an end-to- end approach, from envisioning and planning through migration, implementations and managed services. Our heritage and expertise in audit and security ensure that your cloud environment is safe and governed. As a partner with the major cloud vendors, we work with our partners to ensure you get the most out of your cloud environment.

Service Overview

Cloud Engineering - AWS

Protiviti's AWS cloud engineering expertise spans three key domains: design and foundational build, migration and modernisation, as well as governance and remediation. Leveraging AWS's Well-Architected and Cloud Adoption frameworks, we tailor solutions to optimise AWS implementations while addressing unique requirements and ensuring adherence to best practices

Features

- Design, engineering and build expertise in AWS
- Migration and Modernisation strategies
- AWS Well-architected and cloud adoption framework integration
- Deploying infrastructure as code (IaC) using DevOps and Continuous Integration and Continuous Delivery (CI/CD)
- Integrating with third party and native AWS logging and operations tools
- Cloud Migrations - 6R support (Re-host, Re-platform, repurchase, retain, retire & re-factor)
- Utilising IoT and artificial intelligence for smart solutions
- Implementing a Cloud Centre of Excellence (CCoE) of People, Process & Tools
- Implement Cloud and Application Governance
- Technical implementation of Cloud Controls using native AWS tools

Benefits

- Future-proofed AWS architecture
- Continuous optimisation and innovation using the latest AWS services
- Improved IT performance and efficiency
- Scalability to meet evolving business demands
- Enhanced governance and compliance for AWS resources
- Reduced downtime and enhanced reliability
- Improved agility and flexibility in resource management
- Reduced legacy infrastructure by migrating to AWS
- Reduced complexity in cloud operations
- Assurance of adherence to AWS frameworks and best practices
