

AUTHENTICATION AND ACCESS MANAGEMENT G-CLOUD 14 SERVICE DEFINITION DOCUMENT

protiviti®
Global Business Consulting

Protiviti Overview

Protiviti is a Global consulting firm found in 2002 that delivers deep expertise, objective insights, a tailored approach, and unparalleled collaboration to help leaders confidently face the future. Protiviti and our independently owned Member Firms provide consulting solutions in finance, technology, operations, data, analytics, governance, risk, and internal audit to our clients through our network of more than 75 offices in over 28 countries. Protiviti has been recognized as one of the Top 15 best firms to work for, Consulting magazine for more than 5 years in a row. It is also One of Fortune magazine's 100 Best Companies to Work for. Protiviti is a wholly owned subsidiary of Robert Half.

Robert Half is a publicly traded company specializing in staffing and consulting services. Our 67 years of experience, reputation for excellence, and industry leadership position allow us to recruit and attract only the most experienced professionals to serve our client's needs. Robert Half is a member of the S&P 500 index. Robert Half once again was named to Fortune® magazine's "World's Most Admired Companies."

We partner with Robert half to offer tailor-made for organizational change. Our unique flexible delivery model allows unmatched options and value points to our customers, including solution-based consulting, specialized project staffing, or a blend of the two through a customizable approach.

Protiviti's Cloud Solutions provide an end-to- end approach, from envisioning and planning through migration, implementations and managed services. Our heritage and expertise in audit and security ensure that your cloud environment is safe and governed. As a partner with the major cloud vendors, we work with our partners to ensure you get the most out of your cloud environment.

Service Overview

Authentication and Access Management

Our access management offering looks at establishing secure, seamless sign-in and adaptive authentication using multiple factors, while providing a frictionless experience for end users. Advanced authentication controls can also be applied based on user risk profile or type of application.

Features

- Development of access management strategy and roadmap
- Design of company's authentication patterns
- Configure Single Sign-On (SSO) and Federation for company applications
- Development of advanced authentication workflows
- Configuration and enforcement of Multi-Factor authentication based on risk
- Coarse-grain access management and policy management
- Integrating identity into systems by leveraging authentication protocols OAuth, OIDC and SAML
- Customer IAM (CIAM) advisory
- Cloud Infrastructure Entitlements Management (CIEM) advisory

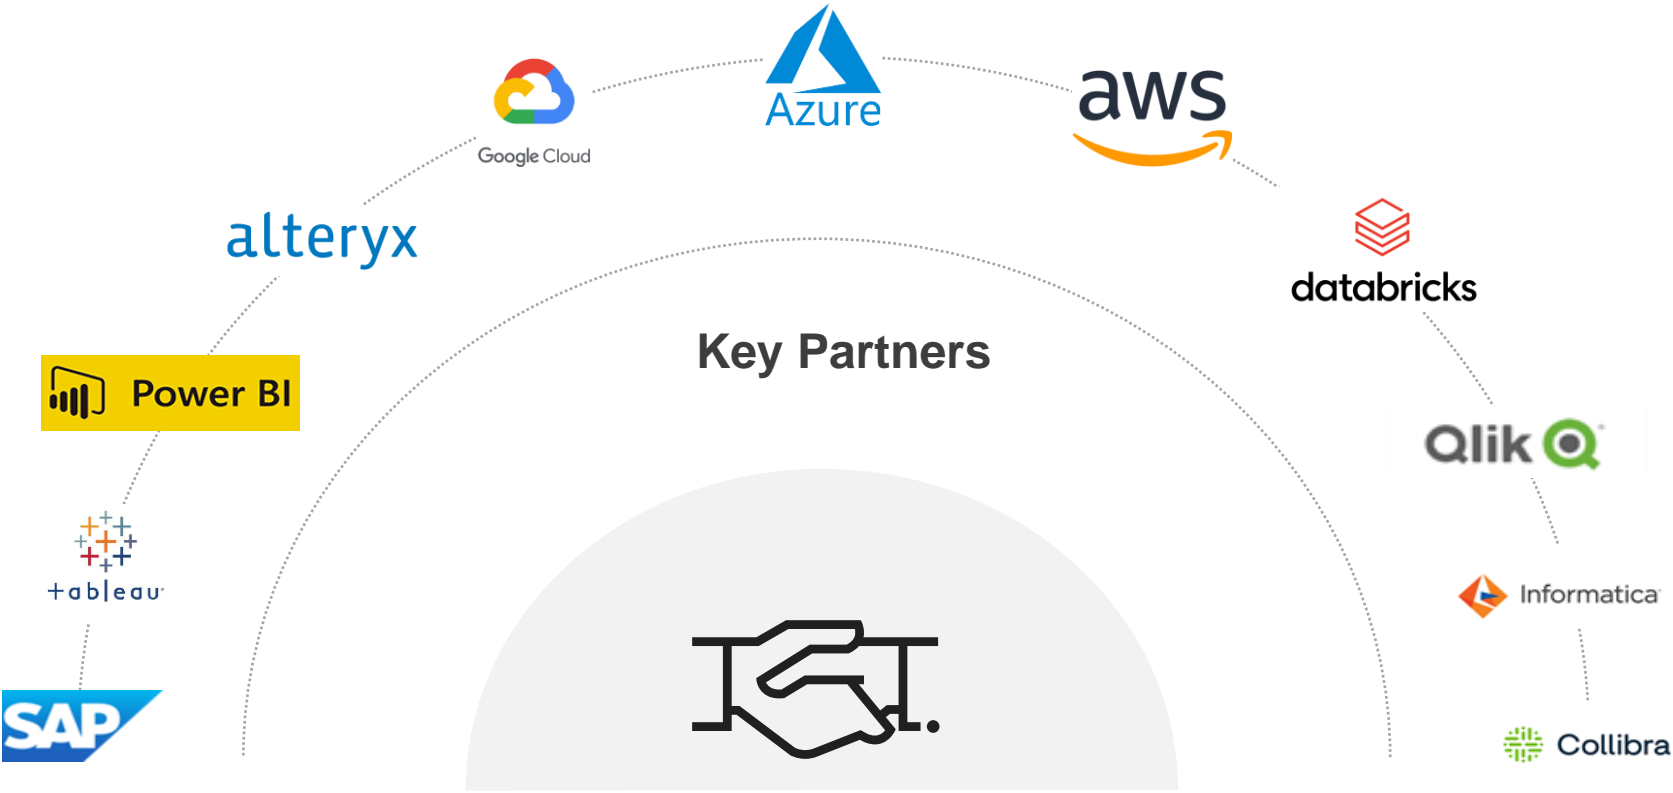

Benefits

- Reduce multiple identities and providing common authentication mechanism
- Adopt risk based approach to access management
- Authentication processes that balances user experience and security
- Seamless authentication by leveraging Single Sign On
- Reduce cloud risk by better managing access to cloud infrastructure
- Omni-channel customer experience

Protiviti Cloud Alliances

Our Partners

Our company has strong technical alliances with leading cloud vendors, fostering collaborative relationships that empower us to deliver comprehensive solutions spanning from advisory to implementation. This deep-rooted partnership ensures that our solutions are not only aligned with industry best practices but also optimised for performance, scalability, and security, ultimately driving tangible value for our clients.
