

Service Pricing Considerations

- Pricing for our services is based on the project team and timescales we agree with you in scoping your requirements
- Pricing will be based on the applicable Skills for the Information Age (SFIA) rate card, which can be found in the Rate Card document available as another download on our Digital Marketplace service page
- The timescales which we agree will depend on the specific scope requirements and the complexity of the project
- The timeline and project team will be tailored depending on the level of involvement required from your own resources in driving and delivering activities
- Goodman Masson Managed Services Limited will invoice you monthly in arrears. Our invoices will be payable within 30 days
- VAT is not included in our published rates
