Assystem G-Cloud Pricing Model

Thank you for considering Assystem as your partner in driving digital transformation within the public sector. We are pleased to present our comprehensive rate deck for professional services tailored specifically for G-Cloud projects.

Our pricing model, which is aligned with the Skills Framework for the Information Age (SFIA), ensures that you will be able to access or teams that possess the requisite competencies and expertise to deliver high quality services that meet the demands of our ever more complex information environment.

This pricing document enables us to create a flexible roadmap to accessing the diverse array of services we offer to support our clients in their journey towards harnessing the full potential of cloud computing. Whether it's strategizing the migration process, designing and deploying cloud environments, or ensuring data governance measures, our team of experts stands ready to deliver tailored solutions aligned with the unique needs and stringent requirements of government agencies.

Furthermore, we understand the importance of fiscal responsibility within the public sector, and as such, we are pleased to offer discounts for long-term contracts or bundled services, demonstrating our commitment to fostering enduring partnerships and facilitating sustainable cost savings for government agencies.

Please note the following when reviewing our rates:

- All rates are exclusive of Value Added Tax (VAT)
- Our rates assume a 40 hour working week, or 8 hour day
- Our office hours are 09:00 – 17:00 Monday to Friday
- Expenses outside the M25 will be payable against our expense policy unless agreed otherwise
- Professional indemnity insurance is included in the day rate
