# CyberCX Provides Integrated Security Solutions

The breadth of services and capability enables CyberCX to effectively partner with organisations to solve the most complex cybersecurity challenges.

CyberCX unites trusted cybersecurity experts to deliver a comprehensive cybersecurity capability. Every piece of the cybersecurity puzzle matters to the big picture. That's why our security specialists collaborate, so we can deliver true end-to-end cybersecurity results.

CyberCX provides services covering the entire cybersecurity continuum, including:

- **Advise, Assess and Assure:** Cybersecurity to help navigate complexity, minimise risk, improve resilience, and create value for your organisation.
- **Secure, Integrate and Transform:** Plan, design, build and run infrastructure and solutions that deliver tangible business results.
- **Manage, Respond and Grow:** Build security resilience in your organisation and achieve confidence during a crisis, an incident or investigation and quickly and safely restore business operations.

\*The prices shown above are indicative based on a typical engagement. All engagements are scoped individually, and final pricing will be included in the statement of work.

# GRC Services Rate Card – Supplier Resiliency Services

Our goal is to provide exceptional client service to our customers by offering our consulting services at a fair and competitive price while utilising the most efficient and cost-effective methods available.

The pricing for this specific service offering will be on a time and materials basis with reference to our **SFIA Pricing Framework** provided. Please refer to our **SIFA Rate Card** document on our Digital Marketplace service page.

We will offer discounted pricing for engagements where each individual resource days effort is more than twelve days per purchase order.

We are committed to providing customers with cost-efficient pricing solutions and we will consider other pricing models and approaches such as fixed-fee engagements. Under this arrangement, our engagement fees will be at a fixed cost for a specific scope of work and will be based on our SIFA pricing framework, but individual day rates included in any fixed-fee proposal would not exceed the maximum day rates specified in our SIFA pricing framework. Our key goal is to work collaboratively to determine the most suitable commercial terms for each customer's unique requirements.

All prices exclude Value Added Tax (VAT) unless otherwise indicated.
