

# Cyber Strategic Policy Advice

Providing advice on how organisations can influence others to improve their cyber security.

Refresh and uplift of a cyber security policy framework and subordinate policies to align it with best practice and the organisation's operating environment.

This service provides guidance on how Governments and related entities can align to industry and regulatory best practices to influence other entities to improve their cyber security

## Organisational benefits

### Streamline Policies

Reduce policy gaps or duplication of policy across the organisation.

### Increase Efficiency

Promote policy efficiencies and facilitate resolution of incidents.

### Enable Cyber Outcomes

Develop policies to guide specific cyber security outcomes across the organisation.

### Drive Uniformity

Drive uniformity in the organisation's cyber security approach

### Alignment to Best Practice

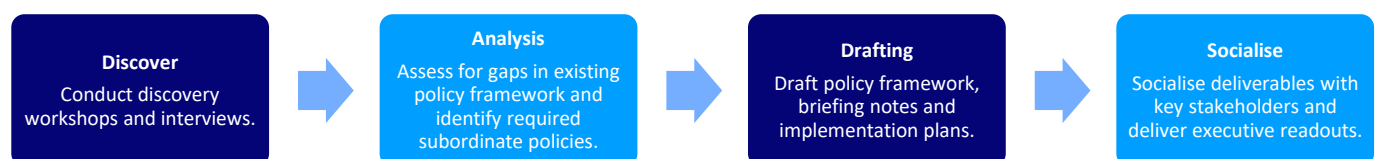

Alignment to both best practice and the organisation's operating environment.

## Service features

CyberCX can facilitate the following activities as part of their strategic policy advice service:

- ▶ Assessment of overarching policy frameworks and subordinate policies against industry and regulatory standards.
- ▶ Development of policy framework to guide cyber security outcomes.
- ▶ Scoping and defining intended outcomes for cyber policy interventions.
- ▶ Provide implementation plans to support ongoing security policy updates.
