# Consulting Services: G-Cloud 14 Pricing Document

Cloud Support: LOT 3

# Strategy and Consulting Services: GCloud Pricing Document

Our goal is to provide exceptional client service to our customers by offering our consulting services at a fair and competitive price while utilising the most efficient and cost-effective methods available.

The pricing for this specific service offering will be on a time and materials basis with reference to our **SFIA Pricing Framework** provided. Please refer to our **SIFA Rate Card** document on our Digital Marketplace service page.

We will offer discounted pricing for engagements where each individual resource days effort is more than twelve days per purchase order.

We are committed to providing customers with cost-efficient pricing solutions and we will consider other pricing models and approaches such as fixed-fee engagements. Under this arrangement, our engagement fees will be at a fixed cost for a specific scope of work and will be based on our SIFA pricing framework, but individual day rates included in any fixed-fee proposal would not exceed the maximum day rates specified in our SIFA pricing framework. Our key goal is to work collaboratively to determine the most suitable commercial terms for each customer's unique requirements.

All prices exclude Value Added Tax (VAT) unless otherwise indicated.

For further information about any of our G-Cloud services, please contact our UK Sales Team
