

31ten – Pricing Document

G-Cloud 14 Lot 3

Our Pricing Options and Approaches

31ten are committed to working in partnership with our clients, and therefore we offer a range of pricing options for our engagements. This is to allow the right model and approach to be adopted for each specific and individual project. These are an indication of our most popular models and approaches, we would be happy to discuss your requirements and establish a bespoke pricing model to suit. All rates within each of our pricing approaches are taken from our SFIA rate card within this document.

Fixed Fee

For projects where the deliverables are well defined and the goals and objectives are clear, we will provide a fixed fee approach to give you certainty of budgets and costs.

Time and Materials

We are also happy to operate on a time and materials basis to assist our clients where project objectives and deliverables are less well defined and you require some up front support to shape and define your projects.

Volume and Combination Discounts

Many of our client engagements cover a variety of skills and inputs from our service lines and staff, and our support is offered over many months. In these circumstances we offer volume and combination of service discounts as our relationships progress.

Contingent Fee

In certain circumstances where project deliverables are well defined and aimed at producing benefits such as cost savings and productivity improvements, we are willing to make an element of our fees contingent on jointly achieving these outcomes with our clients.
