YOKO:10™

Microsoft Power Apps Fundamentals - Pricing Document

Date: May 2024
Revision: 1.0

About us

yoko:10 is a boutique consultancy, based in Sheffield. We provide consultancy for Microsoft products, with 15 years of experience working with intranet, productivity, and collaboration services. It's something we know a lot about and something we do well. We support business UK wide, filling the knowledge and skills gap when required.

We specialise in three core areas; these being Microsoft 365 Productivity and Collaboration, SharePoint Online Intranets and Microsoft 365 Security and Compliance.

Our name comes from the Japanese term "yokoten", this translates to "sharing best practice". We feel that represents our company well, and it's reflected in everything we do.
