- Prices in the price list are guidelines. Please engage with Mimecast Professional Services for accurate pricing and scoping of all projects

Legacy Archive Data Management

- The minimum data volume for Legacy Archive Data Management is 100GB per order
- Preparation of the data for import into Mimecast is the responsibility of the customer, unless Intelligent Data Migration Services are purchased in conjunction with Legacy Archive Data Management
- Legacy Archive Data Management is billed annually or upfront based on the volume of data provided to Mimecast

Important Notes (Page 3 of 3)

Implementation Services

- Assisted Connect is a fixed cost, fixed scope of work
- All other tasks are separately defined, and subject to the daily consulting rate

An aerial, high-angle photograph of a dense urban skyline during the "golden hour" of sunset. The sky is a deep orange, and the city's buildings are silhouetted against the bright light. Many windows are illuminated with warm yellow light, creating a grid-like pattern of light across the facades of the skyscrapers. In the upper right, a Ferris wheel and other city structures are visible in the distance. The overall mood is one of a bustling, modern metropolis.
