Next2IT

Multi-Cloud Pricing

Our multi-cloud offering provides access to multiple cloud providers as a fully managed solution. Prices from our different cloud offerings can be found below:

AWS - https://calculator.aws
Azure - https://azure.microsoft.com/en-gb/pricing/calculator/
Google Cloud - https://cloud.google.com/products/calculator
IBM Cloud – https://www.ibm.com/uk-en/cloud/pricing

Our management prices are calculated based on the size of the environment. The table below provides indicative prices, it should be noted that no two offerings are the same and our services are tailored to the needs of the client.

The below prices were calculated with 24x7x365 remediation to priority 1 & 2 alerts and working hours support. Prices also included patching and 4 hours of change requests per virtual machine.
