Mazars Overview

Operating as a united partnership, we work as one integrated team, leveraging expertise, scale and cultural understanding to deliver exceptional and tailored services in audit and accounting, as well as tax, financial advisory, and consulting.

Founded in Europe, Mazars is present in over 90 countries and territories, with 44,000 professionals – 28,000 in our integrated partnership, 16,000 via the Mazars North America Alliance – dedicated to helping clients make the most of business opportunities and operate with confidence.

In the UK, Mazars is among the largest firms in its sector and a leading auditor to Public Interest Entities (PIEs). It employs over 2,300 people in 16 locations across the UK, providing a balanced perspective and empowered expertise to clients of all sizes, from individuals and SMEs to mid-caps and global players, as well as start-ups and public organisations at every stage of their development.

Driving excellence in service delivery through innovation and partnership

Expectations of public service organisations are growing. However, financial constraints and regulatory burdens in the sector create a challenging operating environment. Managers are increasingly asked to do more with less. Our experts help public and social sector organisations build confidence through tailored, practical solutions. Working in partnership with governments and not-for-profit organisations, we identify opportunities for operational and technological innovation to help improve service delivery for the benefit of society at large.

Our approach

Even during challenging times, organisations need to remain focused on delivering outstanding public services. Leadership teams also need to be able to evaluate performance without delay. Our team of over 200 public services experts draw on their market knowledge to help public and social organisations to get the most from what they have. Our strong links across the public and social sector, together with our significant industry experience, inform our approach in public sector audit, advisory, and tax. By working to understand your current strategy and long-term ambitions, we identify the solutions that fit your organisation and provide the guidance needed to build business resilience and create efficient operations in the sector. At Mazars, we are focused on enhancing your organisation's abilities and preparing it for future challenges.

Technology and Digital

We combine our skills and expertise with both a global perspective and local knowledge to provide clients with a broad array of professional services. We empower our people to help clients make the most of opportunities, operate with conviction, and give confidence to their stakeholders.

We can help guide and advise businesses through the changing landscape to help manage risk, optimise processes and capitalise on opportunities. Regardless of your business cycle or circumstances, we are able to combine our expertise on strategy, risk, technology, people and processes to provide tailored solutions that suit your business objectives.

We offer a broad spectrum of technology consulting and assurance solutions, covering **cyber security**, **data protection**, **data management**, **IT audit**, **IT operations** and **forensic technologies**.
