Managed Detect and Response (MDR) Pricing

The Socura way

At Socura we build our MDR service in conjunction with you. There is no 'one size fits all' solution. Therefore, our team will engage with you to understand your requirements and goals to scope a solution with you to deliver real value.

Factors that will influence cost include:

- Infrastructure and device type, with number of devices to be monitored
- Technology deployed, which may include Endpoint, Networking Monitoring, and Cloud Monitoring
- Proactive action that can be taken
- Reporting requirements
- Hours of monitoring

Commercial and Pricing

- After scoping, Socura will determine the solution to be deployed to meet your requirements. The fees are split between an upfront onboarding fee and a monthly subscription.
- As a guide each unit would be in the range of £80 per annum for monitoring.
- There is a minimum commitment of 200 units and the minimum term is 12 months.
- Fees are paid annual in advance and are exclusive of VAT.
- Fees are payable within 30 days.

Proof of value approach

At Socura as part of our agreement we can provide a Proof of Value (POV) phase in which you can experience the service, and if you are not completely satisfied we have met our agreed objectives you can break out of the agreement at the end of the phase.

To obtain a fully costed quote, please contact hello@socura.co.uk

Our team will work to understand your business, your goals and the environment to be monitored. We will then provide you with a fully costed proposal and delivery plan.
