

DUKEBERRY
SOFTWARE TECHNOLOGY SOLUTIONS

Supercharge your Delivery Services

About us

Dukeberry Solutions is successful technology consultancy, with a proven track record of delivering highly effective solutions across large scale digital transformation projects.

Dukeberry understand the challenges businesses face with organisation and technology change in a fast moving market landscape. Company mergers, reducing costs and the requirement for changes in regulations has introduced challenges to businesses skills, capability and the availability of experienced resources. Recruiting the right people to lead transformation projects can take time, prove costly and may not always deliver the right outcome.

In partnership with your organisation Dukeberry can offer the swift deployment of highly effective managed services and individual specialists who have successfully tackled numerous challenges similar to those you may encounter to effectively lead and support your change programmes and operational services.

Socially responsible and committed to creating social value, collaborating with our partners and developing in-depth specialist knowledge so we can provide timely and cost effective project delivery.

Approved HM Government G-Cloud & Crown Commercial Supplier and Microsoft Partner.
