# Our Outline Offers

## Better EPR/ERP/Specialist/Core System Journeys (Implementation & Optimisation)

From the moment you start on your journey the challenge to making sustainable improvement to really achieve your vision begins. Using practical, real-world experience and proven approaches we can accelerate the achievement of the outcomes you are after through a rounded support model tailored for your organisation and context.

## Developing Digital Leadership & Change Improvement

Digital is more about people than technology. We focus on understanding your context as we then build on user-centred design and sustainable behavioural change approaches exploring creating the environment for your people to thrive. Our services cover capability and multidisciplinary team development, governance and structure reviews, and culture reviews and leadership development.

## Bringing Strategy to Life

Helping clients reimagine their organisation, market and ecosystem for the digital age, through practical holistic approaches to make plans achievable in the context of your organisation, leading the transformation, to deliver the best impact and outcomes.

## Effective Disruptive Tech Evaluation & Market Intelligence

Ever wonder whether the buzz of AI and clinical technologies could work in your context? Conversely are you a manufacturer that is looking to enter or find sustainable growth in a complex public sector and health markets? Our services explore clinical operational needs and align technologies and assessment of the market for both providers and manufacturers.

## Unlocking Working Differently

Covid catalysed a generation to think differently about work, but this was part of a longer-term trend. We can help you use the right technologies through understanding your workforce and the way they work and could work. Our personal driven approaches enable a more sustainable look at the choice, cost and effectiveness of technology use aligned to productivity increase and value/cost optimisation.

# Why KCL Digital?

KCL Digital is well placed to support you with your digital journey as we bring the experience of working across health and social care, local and regional government, and the third sector all together with a depth of leading expertise and collaborative approaches to support sustainable continuous improvement.

# Our People

KCL Digital is its people: We take the team thing seriously, pulling diverse minds together in our distinctive **spirit of helping people thrive**. We value the principles of ‘working in the open’; sharing of ideas, insights, challenges, best practices, and emerging trends as **core to our delivery**.

Whether on-site with clients, remotely or in our studio in Richmond, our approach to **matching the best talent as standard** delivers the kind of insightful problem solving that offers more than just delivery.

# Our Core Industries & Focus

## NHS Providers

From Primary to specialist care, technology and data has often become a burden, our teams can explore a way of doing things differently to unlock the true potential of the digital era for health.

## Local & Regional Government

Government leaders face an ever-evolving landscape of increased expectations and productivity challenges. Our experienced team can help imagine and explore a path to realising your vision.

## Voluntary, Charities and Social Enterprise

VCSE leaders face a daunting number of challenges, potential threats but also opportunities. Our experienced team will help you envisage and construct a pathway to success.

## Social Care Providers

Digital can dramatically improve the quality and safety of care. Our teams can explore, from both a care and health system view, the opportunities and the actions to energise your plans.

## Integrated Health Systems

Sizable shifts abound across Health and Care. Our multi-disciplinary approach helps systems stay in the know and ahead of the curve.

With our real-world specialist, specific knowledge and experience, we can tailor our offer to your needs driven by making a difference.

## HealthTech & MedTech

Today, in health and care, emerging technology and science stands as one of the greatest opportunities. Our wide array of capabilities and experience help innovative companies tackle the challenges of thriving in a complex market and regulatory setup.

## Private and Retail Health and Care

Finding a way to engage, improve experience and stay in touch with customers and patients is a major business issue. Our adaptable approaches, putting people at the centre, unlock ways to get these users clicking, talking and connected.
