Data Analyst	£75	£600	£3,000
UI/UX Designer	£75	£600	£3,000
Business Analyst	£75	£600	£3,000
Quality Assurance Engineer	£81	£650	£3,250
Developer	£81	£650	£3,250
Project Manager	£100	£800	£4,000
Solutions Architect	£119	£950	£4,750
AI Specialist	£150	£1,200	£6,000

Skills Matrix

Role	Responsibilities
Support Specialist	Provides ongoing support for low-code platforms, ensuring smooth operation and quick resolution of issues in data-driven and AI-enhanced environments.
Data Analyst	Drives insights from vast data landscapes, optimising data flows and analytics within low-code platforms to inform strategic decisions and AI enhancements.
UI/UX Designer	Designs intuitive interfaces for low-code applications, focusing on user experience to ensure accessibility and effectiveness of data visualisations and AI features.
Business Analyst	Bridges technical capabilities and business goals, translating complex data and AI-driven needs into actionable development plans for low-code solutions.
Quality Assurance Engineer	Ensures the reliability and functionality of low-code applications, rigorously testing across various scenarios, especially those involving complex data sets and AI outputs.
Developer	Builds and customises low-code solutions, integrating advanced AI functionalities and data processes to meet specific business requirements.
Project Manager	Coordinates the deployment of low-code platforms, ensuring timely and on-budget delivery of innovative solutions. Facilitates seamless integration across functions.
Solutions Architect	Architects scalable and adaptable low-code environments that seamlessly integrate with AI and data analytics tools, ensuring robust, future-proof infrastructures.
AI Specialist	Develops and integrates AI models into low-code platforms, enhancing automation capabilities and leveraging data insights to drive intelligent process automation.
