ABOUT US

An ethical, client led, technology transformation boutique consultancy.

- Manchester based
- Formed in early 2019
- Strong ethical consulting mantra
- Aligned to healthcare, local government, housing and charity sectors
- Resource pool of former CIO's, CTO's, Chief Executives and Transformation Directors
- Unique but proven methodology
- People led but with an asset consulting approach

OUR MISSION & VALUES

Our mission and values shapes everything we do, and we live and breath these daily.

Integrity is at the heart of this which means being transparent, engaging without a sales agenda and always being on our clients side.

We're also here to **enable others**. Not just our internal employees and associates but our partners and clients too.

Finally, we pride ourselves on the **quality** of the **outcomes** we create for clients, not just the outputs we provide or the people we put in place.

We believe there are **8 critical success factors** that we must achieve as part of any project:

Find the root cause

Reduce change risk

Seek change allies

Align outcomes

Identify quality solutions

Remove blockers

Communicate complexity

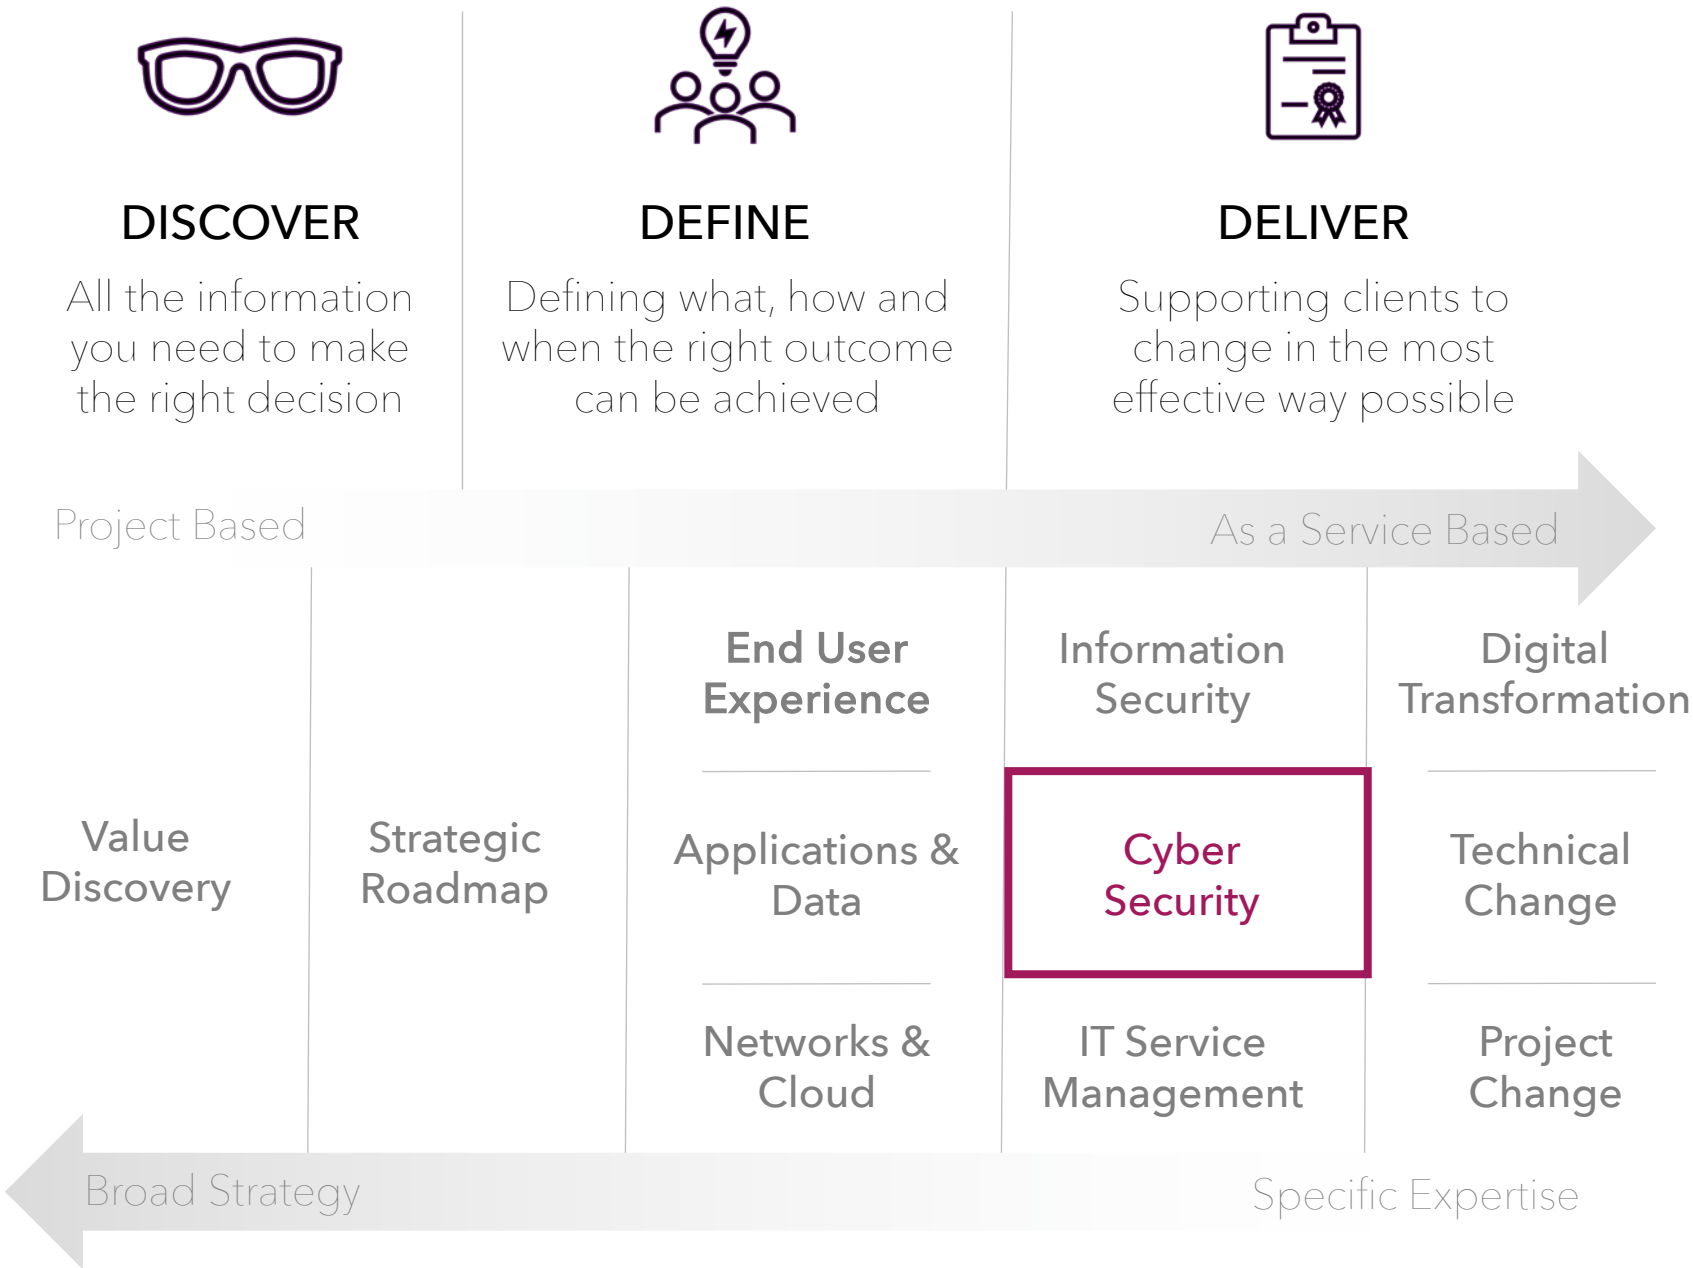

Enable efficiency

OUR SERVICES

We specialise in enterprise wide value discovery but we know what it takes to deliver true digital transformation.

This is why we have an interconnected set of services ranging from broad discovery, through to specific expertise and guidance services that help navigate the challenges of delivery.

These services also vary between projects and as-a- service offerings. For more information see our GCloud services.

CYBER SECURITY

SERVICE OVERVIEW:

The threat to organisations from cyber security attack is unprecedented. When embarking on digital transformation it's something that cannot be ignored and must not be forgotten. Ensuring the security posture of the organisation is as strong as possible is based not just on deploying network and security tooling. It's also based on strong security principles that are weaved into every system, every process, every organisation department and every person who works in the organisation. This is why we have created our cyber security service, to bring awareness and understanding to the needs of security when embarking and delivering on digital transformation.

Some of the typical activities provided from the cyber security service are:

- Cyber posture and threat analysis review, covering everything from security training and governance across the organisation, right through to security toolsets and technical threat protection.
- Identity and access management review and roadmap for improvement.
- Public cloud security review pre, during and post public cloud implementation.
- Security operations support and guidance services.

CYBER SECURITY

FEATURES:

- Threat intelligence and awareness from detailed review across both IT and the organisation
- Availability and business continuity reviewed in conjunction with threat protection and prevention.
- Experienced CISSP security architects.
- Guidance services for senior leaders and managers in measuring, monitoring and managing of IT systems and services from a cyber security perspective.
- Extensive knowledge of public cloud security.

BENEFITS:

- Reduced risk from cyber security threats to your organisation through awareness of the threat and a detailed plan of action and roadmap.
- Easier to enact security change by enabling accountability in the organisation.
- Reduced threat to the organisation of data leakage and fines from ICO from cyber attacks
- Lower risk from reputation damage through cyber security threats or downtime from a major outage

ENGAGEMENT APPROACH

- Dedicated account manager from your very first contact through to the end of your project.
- Weekly updates and reporting throughout your project, aligned to your internal reporting cycles.
- Escalation and project change process clearly defined, with feedback incredibly important to us.
- Projects managed by PRINCE II qualified and experienced project managers.
- Projects are delivered by experienced individuals, working to a robust and repeatable process that is proven in the market.
- We provide the option to augment your existing teams, closely collaborating in the delivery of the overall project, should you require this.

"CoStratify are professional, responsive, flexible, and extremely knowledgeable and provided One Manchester Housing with a holistic view of our IT systems, infrastructure, and approach to programme management."

Nicole Kershaw - CEO
One Manchester Housing

York and Scarborough Teaching Hospitals

NHS Foundation Trust

"Whatever you think your level of IT maturity is, if you want independent and vendor agnostic experts to come in and assess where you are now; and based on where you are, where you need to be and how to get there, these are the guys to help you."
