

Toller Consulting Limited - Cloud Services

David Atkins – david@tollerconsulting.com 07976 358639

Cloud Migration Planning:

Toller Consulting excels in providing meticulous Cloud Migration Planning services, ensuring a seamless transition to cloud software and hosting. Our expert team conducts a thorough analysis of your current infrastructure, developing a tailored migration strategy that aligns with your business objectives.

Set Up and Migration:

Experience a smooth transition with our Set Up and Migration services. We consolidate and transfer diverse workloads, including emails, files, calendars, documents, instant messages, applications, user permissions, and complex structures. Toller Consulting ensures the integrity and security of your data during the migration process.

Security Services:

Protect your cloud services with Toller Consulting's robust Security Services. We shield your infrastructure against security threats, maintaining confidentiality, integrity, and availability. Our comprehensive security measures safeguard your services and information, providing you with peace of mind.

Quality Assurance and Performance Testing:

Toller Consulting is committed to ensuring that your cloud services consistently meet user needs efficiently and reliably. Our Quality Assurance and Performance Testing services guarantee that your systems perform optimally, providing a seamless experience for your users.

Training:

Empower your organization with Toller Consulting's comprehensive training services. From optimizing the use of cloud-based software to cloud security management, we offer tailored training programs. Equip your teams with the skills and knowledge needed to leverage the full potential of cloud services and stay ahead in the digital landscape.
