SFIA Rate Card

Our SFIA rate card is **based on our team members' experience and aligned with industry standards** to ensure transparent pricing for our customers. We are committed to continuous improvement and upskilling, helping our staff enhance their skills to better support our clients both now and in the future. Accordingly, **we offer various levels for each job role, each with a corresponding day rate.**

It is important to note that we **tailor the expertise to your project's requirements.** We will determine the necessary role level for your project, providing you with justification and a portfolio of the assigned individual's work for your review and approval before commencement.

We ensure that the **resource allocated to your project is selected based on the specific needs and complexity** of your project. Additionally, we offer apprentices within our team the opportunity to shadow our experts at no extra charge, enabling them to gain invaluable knowledge and experience early in their careers.
