Integrated & Bespoke Solutions

Product:	Description:
Anti-Money Laundering (AML) Checks	Creditsafe's AML checks offer enhanced checks that deliver an answer in seconds. With screening against over 300 data sources, you can exhibit strong governance whilst speeding up your on-boarding process.
KYC+ ID Reports	Verify a consumers' identity utilising hundreds of data sources whilst also screening against international PEPs and Sanctions databases. Subjects can be re-validated using Driving Licence, MPAN Number, Passport and European ID.
Compliance Search	Enhanced due diligence checks that meet the anti-bribery and corruption regulation, allowing you peace of mind when taking on new business in higher risk industries and territories.
Compliance Monitoring	Add both individuals and businesses to be screened against the PEPs and Sanction databases on a daily basis. Creditsafe's on-going monitoring will alert you so that you can make an informed decision on how to proceed.
Creditsafe Protect	Screen businesses and individuals against real-time global enforcements lists, sanctions databases, adverse media, state-owned enterprises and millions of PEP profiles across the globe, with data from LexisNexis World Compliance.
Consumer Credit Reports	Comprehensive consumer credit reports provided by TransUnion. Accessible online via Creditsafe.
Check & Decide	Easily automate existing credit policies and business workflows with Creditsafe's credit automation solution. Over 200 fields of business information available which can be included within your decision tree, alongside your own unlimited user-input data fields.
Bespoke Monitoring	Advanced company trend analysis and monitoring service with over 200 data sources to choose from. Customised Excel reports can be scheduled on a daily, weekly or monthly basis.
3D Ledger Management	Our leading risk management and profiling tool enriches your sales ledger with our live business data and unique trade payment experiences. By providing a fully customisable, 3 dimensional view of your trade lines and payments to help you prioritise collection strategies.
Data Cleaning	Removes expired records and enriches your existing data by matching it against Creditsafe's 365 million business records, to keep your data accurate and up-to-date.
Creditsafe Home Countries (Freedom)	Freedom access to company credit reports in Creditsafe's home countries (Italy and U.S. capped at 500) – <i>see countries marked * on pages 6 +7</i>
