Service Pricing Considerations

- Our costs for each of our individual services are tailored to each individual project or engagement, and are based on the team and timescales we agree with you when scoping your requirements
- Our costs are based resource based pricing and on the applicable SFIA rate card costs that can be found in the Rate Card document our Digital Marketplace service page
- The timescales that we will agree depend on your specific scope requirements and the complexity of your organisation. We shall work with you to best size the engagement and our team to meet your needs
- Epitechnic will invoice you monthly in arrears based on the days worked in that calendar month. All invoices will be payable within 30 days
- VAT is not included in our published rates
