

# Cyber Risk Assessment *Pricing*

G-Cloud 14

# Pricing

Below is Vizst's pricing based on our standard service package. We are flexible in our approach and understand that every customer has unique needs, so we are happy to discuss alternative models.

The majority of Vizst Technology's services can be customised based on your environment, infrastructure, skills and desired outcomes. As such we always recommend an initial scoping and discovery activity to determine the resource profile and pricing for a given call-off request.

Note pricing excludes any vendor support, licences and hardware.

Description	Price (one-off)
<b>Cyber Risk Assessment</b> 1 assessment (approx. 6 weeks)	£15,000

# Order *Process*

Where Vizst Technology has been selected as the only appropriate supplier available on G-Cloud, we will work with the Customer to discuss requirements and produce a G-Cloud Call Off Order Form that describes timescales, dependencies, deliverables, etc. and commits a price. The G-Cloud Call-Off Order Form can then be formally issued and signed by both parties, subject to respective procurement policies and processes. Once a signed Order Form and purchase order has been received, work can be scheduled.

For any further information or where a competition between multiple shortlist or longlist vendors is required as per G-Cloud procurement guidelines, please contact us.
