[projectmanagementworks.co.uk](http://projectmanagementworks.co.uk)

higher rate of project failures due to organisations neglecting the importance of project management.

[teamstage.io](http://teamstage.io)

**Reduce the risk of your complex projects failing by appointing a consultancy that understands how to plan, deliver and handover key projects to cost, quality and time.**

# What We Do

## CYBER SECURITY

### Auditing & Accreditation

Defining and delivering cyber security audits. Advising and delivering accreditations such as ISO27001.

### Human Factors

Providing expertise to reduce human cyber threats, this includes tool deployment, Incident Management etc.

### Technical Controls

Delivering technical cyber security consultancy, including Zero Trust, IDAM, Firewalls, API etc.

### Testing

Conducting security testing and running bug bounty programmes.

### OSINT

Delivering (Open-Source Intelligence) products and research.

### Training

Providing bespoke cyber security training or exercises for all workforce competencies.

## DIGITAL TRANSFORMATION

### Shaping & Strategy

Crafting, advising on, and implementing cyber security and digital transformation strategies and solutions.

### Technology Deployment & Change

Demobilising old technology and conducting necessary change activities to mobilise new solutions.

### Change Management

Working with client teams to prepare and deliver measured change to a workforce.

### Cloud Migrations

Planning, executing and testing cloud migrations across all major cloud service providers.

### Cloud Optimisation

Reviewing, presenting and delivering optimisation.

### Capability Development

Constructing applications, teams, services and other capabilities to meet client objectives.

### AI Adoption

Advising on how AI can be utilised by organisations to increase the quality of the delivery of client products.

## PROJECT MANAGEMENT

### Total P3M

(Project, Programme and Portfolio) including project controls services for clients.

### Cyber P3M

Industry specific expertise in the delivery of complex, time and cost sensitive projects.

### Digital P3M

Industry specific expertise in the delivery of complex, time and cost sensitive projects.

### Engineering P3M

Industry specific expertise in the delivery of complex, time and cost sensitive projects.

### Product Management

Industry specific expertise in the delivery of complex, time and cost sensitive products.

### Training

The provision of bespoke P3M training for technical and non-technical audiences.

# Some Case Studies

HM Government

## THE PROBLEM

UWE aimed to enhance and promote regional cyber security by offering expert guidance to supported SMEs.

A government cyber security research project required technical expertise and complex project delivery experience to achieve success.

WeShape required project recovery of a delayed, critical cloud-based digital transformation project that had experienced significant setbacks.

P3M Works managed suppliers and stakeholders to enable hackers to test systems in a controlled environment, the first of its kind in government.

## OUR SOLUTION

- 1) Tailored experiences were created for each SME organisation, rather than adopting a generic one-size-fits-all approach.
- 2) Worked with UWE to devise a scalable cyber security hygiene programme for the region.
- 3) Enabled all supported SMEs to achieve cyber essentials.

- 1) Re-baselined project to arrive at a feasible delivery schedule.
- 2) Provided technical expertise to solve a key project blocker.
- 3) Managed teams from across a wide range of companies to deliver technical work on time.

- 1) Re-established positive relationships between customer and stakeholders.
- 2) Provided the control and reporting required for successful delivery.
- 3) Implemented appropriate project governance.

- 1) Identified the target, objectives and outcomes of the in-person bug bounty and managed the supplier to achieve a first-of-its-kind bug bounty.
- 2) Utilised our project management expertise to deliver the expanded scope of the programme.

# Client Testimonials

“ Organisations gained confidence with cyber security controls and functions, which resulted in a more positive cyber security culture. ”

“ We’d recommend P3M Works to any organisation requiring cyber and technical project management expertise. ”

“ We were highly impressed with P3M Works’ ability to assure delivery on key workstreams and engage all stakeholders. ”

HM Government

“ Working with the ethical hacking community allows us to bring more diverse perspectives to protect and defend our assets. ”
