

Colehouse Rate Card 2024

The alternative transformation and change specialists.

Colehouse - 2024 Rate Card

- Colehouse provide a number of different billing arrangements, including: Outcome based pricing, fixed pricing, standard monthly billing or time & materials (T&M) day rate billing.
- Colehouse recognise the following limitations of traditional T&M billing for deploying consultants:
 - Billing varying from month to month making forecasting and budgeting inconsistent and harder than need be;
 - Commitment tracking inaccuracy where actuals differ from purchase order values;
 - Timesheet approval processes are onerous and create unnecessary administrative workload.
- Colehouse offer an innovative billing model and predominantly prefer to engage using our 'Colehouse Standard Monthly Billing' protocol.
- 'Colehouse Standard Monthly Billing' applies a set monthly fee based on the Colehouse Team, providing certainty of forecasting, ease of billing and lower administrative costs.

Colehouse - 2024 Rate Card
