Assessment Services

Privacy and Compliance

Audit Management

24x7 monitoring and management

V-CISO & V-DPO

Features of Visionet's Security Practice:

- Platform based
- · Automation enabled
- Advanced technologies SOAR, DFIR, Threat Intelligence etc.

Visionet SOC Tools & Technology (SIEM, SOAR, TIP, XDR)

- Sentinel
- QRadar
- Splunk
- Resilient
- MISP
- CTM 360
- · Microsoft Defender
- Cortex
- Trend Micro

Key Facts

- 30+ Projects Delivered
- 150+ Security SMEs
- 50,000+ Devices monitored & managed
- 20+ GRC Audit projects completed

Tools & Technology Expertise

Visionet SOC Service Catalog

Monitoring

- Security alarms real time notification
- Periodical reports for misconfigurations and low severity security evidences
- Tuning process support
- First level analysis and support in security incidents
- Managed Endpoint Detection & Response

Device Management

- Security policy advisory and review
- Change management
- Software patching and maintenance
- Maintenance and management of Firewall and Security Web Gateway

System Management

- Log sources integration and management
- Log parsing and correlation
- On-prem and Cloud Security platforms change management
- Design and implementation of deception scenarios
- Data Loss Prevention
- Cloud Access Security Management

Threat Intelligence

- Periodic event based threat intelligence reports
- Tailored investigation reports on Solix's request
- · Black market monitoring
- Fraud detection
- Data breach
- Anti-phishing

Service Delivery Management

- Incident management
- Change management
- Problem management
- Identity & access management
- SOP / Run book

Crisis Management, training and security awareness

- Security training and courses
- Cyber exercise report
- Cyber Training & Security Awareness
- Cyber Crisis Management

Security Incident Response

- Artifacts analysis and reports
- Containment and mitigation activities
- Incident response reports
- Remediation and restoration technical support
- Security evidences and artifacts
- Compromise assessment report
- Malware Analysis

Governance & Reporting

- Operational reporting
- Cloud security status
- Documentation
- Continuous feedback and improvement

Illustrative Enhanced Features

Enhanced SOAR

- Multiple play books to enrich incident response and remediation
- Incident Diagnosis
- Log Source Health Monitoring
- Ticket triage notification
- Email notification

Use Case

- Reconnaissance
- Weaponization
- Network Security
- Access/Authentication
- Delivery
- Exploitation
- Installation
- Command & Control
- Data Exfiltration
- Others

Threat Hunting

- Identifying previously unknown threats
- ldentifying ongoing non-remediated threats
- Threat Hunting using MITTRE Framework tactic and Techniques.

UEBA

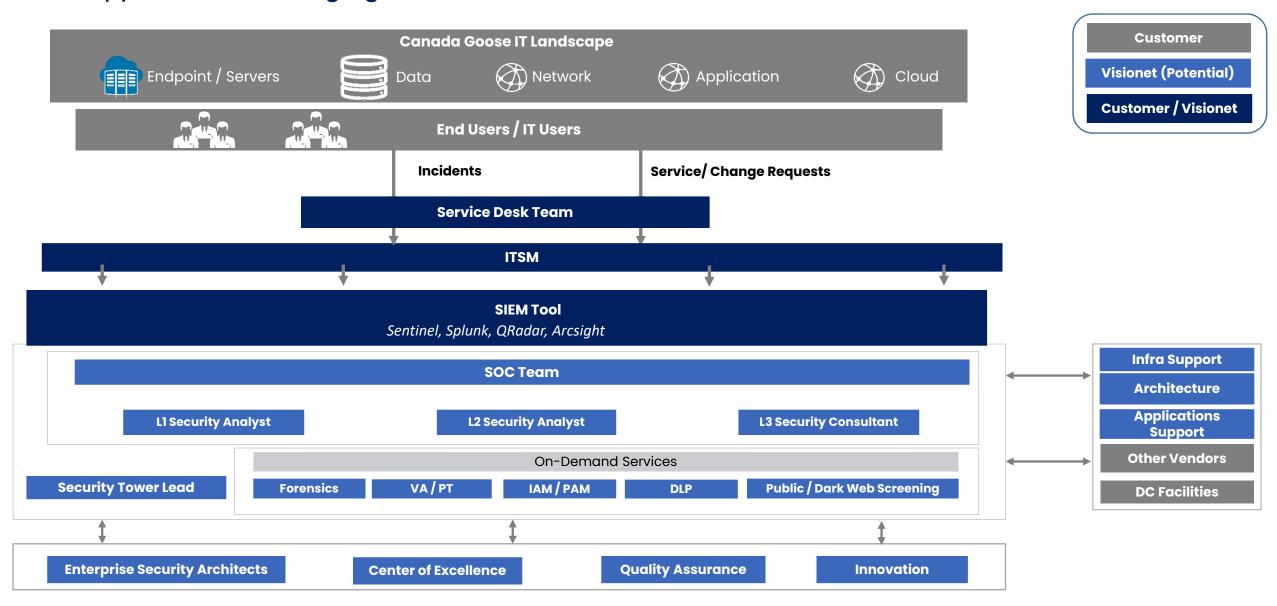

- Based on Machine learning and AIML modules.
- Search Host activities
- Search User Activities

Threat Intelligence

- Periodic event based threat intelligence reports
- Tailored investigation reports on Canada Goose's request
- Black market monitoring
- Fraud detection
- Data breach
- Anti-phishing

VISIONET

Our Approach of Managing SOC

SOC Incident Response (Monitor Network Security, Identify vulnerabilities & Threats)

Prioritized incidents

SIEM

Prioritized Security Insights from Network Logs, Flows, Vulns, User, Config Data etc.

Extensive data sources Cloud

Security devices
Servers and mainframes

Network and virtual activity

Data activity

Application activity
Configuration information

Vulnerabilities and threats

Users and identities

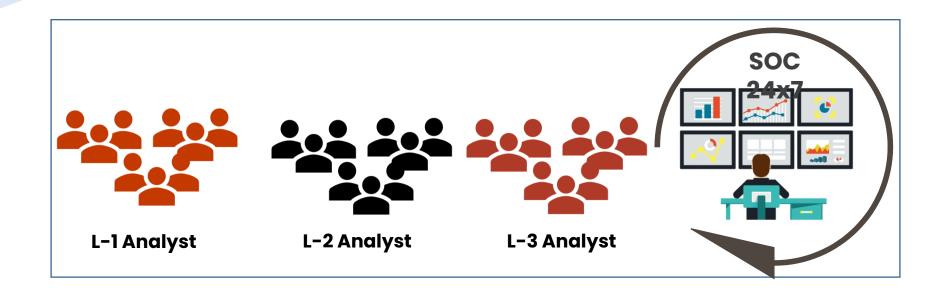

Global threat intelligence

SIEM

- Extensive data collection, storage, and analysis
- Real-time correlation and threat intelligence
- Automatic asset, service and user discovery and profiling
- Activity baselining and anomaly detection

IRP/SOAR

Security Operations for responding to threats, breaches, vulnerabilities

Your Trusted Technology Partner

Visionet is an engineering-led company driven by innovation. In our journey of 27+ years, we've helped over 350 clients across various industries to innovate faster, remain relevant, and build better products and services.

With more than 8,000 people worldwide, across our 14 locations, Visionet provides transformational consulting, technology, and outsourcing services and solutions for a broad range of industries, including Retail & Consumer Goods, Pharmaceutical, Banking and Financial Institutions (BFSI), Insurance, Foods & Beverage, Manufacturing & Distribution, and Apparel & Footwear. With our alliance with global innovators, including Microsoft, Salesforce, Amazon Web Services, and Adobe, we deliver next-generation services and solutions to our clients across Cloud, Digital, Data and AI, and Business Process Management.
