

# Pricing Document

## Our Values

Ethical Healthcare's sole purpose is to deliver positive and meaningful social impact on key societal challenges in the areas of health, wellbeing, and welfare.

Our values are at the core of everything we do, the behaviours we demonstrate and the improvement and changes we seek to deliver to our partners.

Equality and equity: we are never exploitative.

Integrity: we always act in line with our values and morals

Happiness: we strive to make our clients, our colleagues and ourselves happy in our work and lives.

Honesty and Transparency: we are always open and honest and fully transparent in everything we do.

Compassion: we look for the best in all situations and people, we are generous in giving our support.

## Pricing

Ethical Healthcare Consulting tailor their price for each project they undertake, and can do so on fixed price consulting basis, a Time and Materials resource based model or a hybrid of both dependent on what works best for our client.

Our pricing aligns with the attendant SIFA rate card when calculating both fixed price and resource based approaches, and we are also able to provide transparent flexible resource profiles where budget is reapportioned according to client need to enable best possible value. Essentially we will shape and flex a client engagement to ensure the right skill set and experience is applied to the appropriate activity, ensuring maximum return on investment.
