The written application should clearly state that it is associated with a statutory access request made pursuant to the Freedom of Information Act and must include the name of the person who has initiated the disclosure request together with an address for correspondence response.

New Implementation Pricing

The pricing for Integra Finance Management is based on a recurring fee charged at regular frequency (typically annually or quarterly), as agreed with the customer and incorporates software licenses, software maintenance, cloud hosting (optional) and managed service support (optional) on a subscription basis.

Charges vary depending upon a number of factors, encompassing; the scope of customer business/organisational requirements, specification of functional requirements and associated software modules, volume (and type) of user license provision, support services agreement. Final pricing will be determined through engagement with the customer to map the appropriate solution capabilities to a customer's specific needs.

- Integra Centros Essentials Modules is a mandatory requirement.
- Plus and Premium Modules can be added if required.
- API and Interface Packages can be added if required.
- Charges assume contract period of minimum 36 months.
- Managed services support is provided based on IBSS standard service level support.
- Implementation and on-boarding fees are applicable separately.
- Please refer to SFIA rate card for Professional Services and implementation charges.
- All prices below are excluding VAT and cover the available functionality at the time of submission.
- The Annual Subscription Fee is fully inclusive of all software upgrades, software support, infrastructure services and backups (where hosting purchased), and other IT tasks associated with our solutions under a Managed Service.
