ATCH

PLX Self Install Application:

PLX Perpetual Licence inc. 12 months support per user £10,069.82

PLX Annual Support renewal per licence £2,564.07

PLX Subscription Licence 12 months per user £5,264

Digital elements 12 months £75,714

Remote PLX UAE Training £7,500 a day max 12 users.

PLX Analyst Training £9,500 a day, 2 day min event and max of 7 users.

PLX as a hosted service:

As an alternative to self install with the self managed and floor walker support, PLX can be licensed as a fully managed secure hosted capability which can be accessed over a secure VDI session. The hosted version permits the users to offload the deployment and ongoing maintenance of the PLX capability to an experienced provider. The hosted version includes the compute and storage capability for a typical five concurrent PLX user system. It can be expanded with addition compute, storage and user licences to accommodate service growth. The hosted version includes the application of all O/S and application patches and updates. The package includes unlimited data ingress and egress. The service may accommodate other compatible data analytics tooling. Daily encrypted backup, monthly patching and 24/7 support is provided.

Base release includes:

1 TB storage for Database, five PLX user licence, five active remote VDI users, 10 remote desktop named users with matching 10 remote (2FA) users. PLX Licensing is linked to a specific building block. Additional licenses and capacity can be added during the life of the service, subject to minimum terms.

Base release is £49,008.60 for an annual service. Additional options are as per below as quarterly charges:

Component	Charge		
Storage per 1TB	£565.00		
Named Users (10)	£451.20		
PLX Users (1)	£1316.00		

Prices exclude VAT. Delivery time is 20 working days from receipt of contract.

IT Health Check, Training, Judicial compliance support, data restore, and related services are as per SFIA rate card.
