FortaraAI: SC Cleared Cyber and AI Consultancy

Goldline Consultancy Ltd, trading as FortaraAI, delivers cybersecurity programme management, AI governance advisory, and compliance support for defence, government, and regulated enterprise. Every engagement is led by our SC Cleared, CISSP and PMP certified principal with 15+ years of delivery across MoD, central government, public health, automotive, and global technology programmes.

We are practitioners, not just advisors. We build AI systems, deliver compliance programmes, and embed within cleared environments, bringing senior-grade expertise to every call-off from day one.

Our Services

- **SC Cleared Cybersecurity Programme Delivery**
- **AI Governance and EU AI Act Readiness**
- **ISO 27001 Compliance Support**
- **NIS2 Directive Readiness Advisory**
- **DORA Operational Resilience Advisory**
- **Fractional CISO / vCISO Support**
- **Cloud Security Architecture (Azure, AWS)**
- **Cyber Essentials and CE Plus Support**
- **AI Implementation and Workflow Automation**
- **Programme and PMO Management (Agile, Waterfall, Hybrid)**

Our Specialist Capabilities Mapped to G-Cloud Roles

G-Cloud Role	FortaraAI Specialist Capability
Programme Manager	Cybersecurity programme delivery. AI governance advisory. EU AI Act readiness leadership. DORA resilience strategy.
Solution Architect	Cloud security architecture (Azure, AWS). AI implementation design. Secure system design for classified and regulated environments.
Project Manager	ISO 27001 compliance programme delivery. NIS2 implementation. Compliance remediation project management.
PMO Manager	Fractional CISO / vCISO advisory. Compliance programme coordination. Security governance framework management.
Cloud Engineer	Cloud security implementation. CE and CE Plus technical assessments. Infrastructure hardening. Secure configuration review.
Test Manager	Security testing oversight. Cyber Essentials assessment delivery. Vulnerability assessment coordination.
PMO Coordinator / Analyst	Compliance evidence gathering. Audit preparation. Security documentation. Policy review.
Test Analyst	Security test execution. Compliance evidence validation. Technical control testing.

Why Buyers Choose FortaraAI

CLEARANCE

SC Cleared from Day One

Active clearance on a UK defence programme. No vetting delays at engagement start; resource available immediately upon call-off award.

CREDENTIALS

CISSP + PMP Certified

Deep cybersecurity expertise combined with formal programme management discipline. Two elite credentials, one practitioner.

VALUE

Senior Expertise, Direct Access

Direct access to a principal-grade consultant. No Big Four markup. No tiered delivery model obscuring who does the work.

ACCOUNTABILITY

One Named Lead

Single point of accountability from strategy through delivery. No team rotation, no knowledge gaps, no handover risk mid-engagement.

DELIVERY

Proven Track Record

Defence, Central Government, Public Health, Automotive, and Global Technology. Cyber, cloud, and AI programmes delivered across regulated enterprise and government.

AI CAPABILITY

We Build, Not Just Advise

Production AI tools deployed in regulated environments. Advisory grounded in real delivery; not slide decks. We write the code and own the outcome.

Qualifications, Accreditations & How We Work

CREDENTIALS

Qualifications and Accreditations

CISSP	ISC2, Awarded
PMP	PMI, Awarded
SC Clearance	Active, UK Defence
CompTIA Security+	Awarded

6x Microsoft Certified	Security, Identity, Azure, AI

ENGAGEMENT MODEL

Flexible, On-Demand Delivery

Resources available 1 to 5 days per week. No minimum commitment.

Standard hours: 09:00 to 17:30.

Travel: Travel to the primary location is included.

Methodology: We deliver using your methodology or ours. Experienced in Agile (Scrum, SAFe, Kanban), Waterfall, PRINCE2, and Hybrid frameworks.

- ☐ Subject to clearance verification, **mobilisation within five working days** of call-off award.

Selected Engagement Summaries

UK DEFENCE

SC Cleared Cybersecurity Programme Delivery

Embedded as senior programme lead within a UK defence prime, coordinating multi-supplier delivery across cybersecurity and AI workstreams under defence governance controls. Programme delivered on time within strict classification constraints. Deployed as Programme Manager.

ENTERPRISE SECURITY / GLOBAL TECHNOLOGY

Distributed Security Team Management

Senior Technical Programme Manager leading a geographically distributed team delivering mobile application security review services to a global technology enterprise. Structured release engineering, cross-timezone coordination, and executive stakeholder reporting. Deployed as Programme Manager.

REGULATED AI / COMPLIANCE

AI-Powered Regulatory Compliance Tool

Designed and deployed a bespoke AI tool enabling complex UK regulatory content to be queried in natural language. Reduced compliance research from hours to seconds with full source traceability and audit readiness. Deployed as Solution Architect.

Client names withheld. References available on request subject to NDA.
