VE3 Global Ltd
G-Cloud 14 Pricing Document
Digital Energy Operations
Lot 2: Cloud Software

All prices are stated in GBP and exclude VAT. This document sets out the complete published pricing structure for this service so that a buyer can calculate the applicable Call-Off Contract charges without contacting the supplier.

Framework / Lot: RM1557.14 / Lot 2 - Cloud Software

Supplier: VE3 Global Ltd

Digital Marketplace Service ID: 978969050568557

Pricing basis: Published subscription pricing with fixed one-off onboarding charges and fixed optional add-ons.

1. Published subscription pricing

Foundation - £1,200 per month per organisation

Includes one live environment, up to 50 metered assets, up to 15 named users, and standard dashboards.

Professional - £2,750 per month per organisation

Includes all Foundation capabilities plus up to 250 metered assets, fault detection, predictive insights, and up to 50 named users.

Enterprise - £5,500 per month per organisation

Includes all Professional capabilities plus up to 1,000 metered assets, advanced analytics, API export, and up to 150 named users.

2. One-off setup and activation charges

Service onboarding and activation - £2,750 one-off

Includes initial service setup, baseline configuration, and onboarding of up to 50 metered assets.

Additional asset onboarding - £450 one-off per 100 assets

Applies to each additional 100 assets above the assets included within the onboarding charge.

3. Optional published add-ons

Additional metered asset pack - £200 per month

Adds up to 100 additional metered assets to any subscription tier.

Remote administrator or user training - £500 per session

Provides one remote training session for up to 10 attendees.

Annual prepayment discount - 5%

Applies to recurring subscription charges and is available to all buyers on the same basis.

4. Included as standard

Standard software support during UK business hours is included.

Dashboards, monitoring, and standard administration controls are included within the service.

Standard reporting and operational management within the subscribed entitlement are included.

5. Pricing assumptions and notes

Recurring charges are billed monthly unless otherwise agreed through a published payment schedule.

The applicable subscription tier is determined by the asset, user, and feature entitlement selected by the buyer.

Where the buyer exceeds an included entitlement, the relevant published add-on charge will apply.

The prices in this document are the published G-Cloud 14 prices for Digital Energy Operations and apply equally to all buyers. Any discounts are published in this document and are available to all buyers on the same basis.
