

AI for Cybersecurity to Detect Threat Formation: LOT 2: Cloud Software

VE3 Global Ltd
G-Cloud 14 Pricing Document
AI for Cybersecurity to Detect Threat Formation
Lot 2: Cloud Software

All prices are stated in GBP and exclude VAT. This document sets out the complete published pricing structure for this service so that a buyer can calculate the applicable Call-Off Contract charges without contacting the supplier.

Framework / Lot: RM1557.14 / Lot 2 – Cloud Software

Supplier: VE3 Global Ltd

Digital Marketplace Service ID: 645837936564003.

Pricing basis: Published annual subscription pricing with fixed one-off onboarding charges and fixed optional add-ons.

1. Published subscription pricing

Foundation – £8,400 per year

Includes one live environment, one test environment, up to 3 connected security data sources, up to 5 named analyst or admin users, standard dashboards, alerts and the core threat detection library.

Professional – £18,000 per year

Includes all Foundation features, plus up to 10 connected security data sources, up to 15 named analyst or admin users, anomaly detection, API access and SIEM or SOAR integration support.

Enterprise – £33,600 per year

Includes all Professional features, plus up to 25 connected security data sources, up to 50 named analyst or admin users, single sign-on, role-based access control, audit export and premium support.

2. One-off setup and activation charges

Service onboarding and activation – £2,250 one-off

Includes initial service setup, baseline configuration and onboarding of up to 3 security data sources.

Additional data source onboarding – £450 one-off per source

Applies to each additional security data source above the first 3 sources included within the onboarding charge.

3. Optional published add-ons

Additional security data source pack – £2,100 per year

Adds up to 5 connected security data sources to any subscription tier.

Managed tuning add-on – £3,600 per year

Provides scheduled model tuning and detection review. This add-on is included within the Enterprise subscription.

Private deployment option – £7,200 per year

Provides a dedicated private deployment for buyers requiring a segregated environment.

4. Included as standard

Role-based access control, standard audit logging and service usage dashboards are included within the service.

Standard software support during UK business hours is included.

Scheduled threat detection runs, alerting and rule management are included within the subscribed service entitlement.

5. Pricing assumptions and notes

The annual subscription is billed annually in advance and is based on a minimum contract term of 12 months.

The applicable subscription tier is determined by the data source volume, user entitlement and service options selected by the buyer.

Where the buyer exceeds an included entitlement, the relevant published add-on charge will apply.

The prices in this document are the published G-Cloud 14 prices for this service and apply equally to all buyers. Any discounts are published in this document and are available to all buyers on the same basis.
