

## Artificial Intelligence models for Navigation Systems: LOT 2: Cloud Software

VE3 Global Ltd  
G-Cloud 14 Pricing Document  
Artificial Intelligence models for Navigation Systems  
Lot 2: Cloud Software

All prices are stated in GBP and exclude VAT. This document sets out the complete published pricing structure for this service so that a buyer can calculate the applicable Call-Off Contract charges without contacting the supplier.

Framework / Lot: RM1557.14 / Lot 2 – Cloud Software

Supplier: VE3 Global Ltd

Digital Marketplace Service ID: 968421932262789.

Pricing basis: Published annual subscription pricing with fixed one-off onboarding charges and fixed optional add-ons.

### 1. Published subscription pricing

Foundation – £9,600 per year

Includes one live environment, one test environment, up to 5 named admin or power users, support for up to 50 vehicles or tracked assets, route optimisation, and standard navigation dashboards.

Professional – £19,200 per year

Includes all Foundation features, plus up to 15 named admin or power users, support for up to 250 vehicles or tracked assets, real-time ETA prediction, API access, and advanced traffic intelligence.

Enterprise – £36,000 per year

Includes all Professional features, plus up to 50 named admin or power users, support for up to 1,000 vehicles or tracked assets, single sign-on, role-based access control, audit export, and premium support.

### 2. One-off setup and activation charges

Service onboarding and activation – £2,250 one-off

Includes initial service setup, branding, baseline configuration, and onboarding of up to 3 fleet feeds or location data sources.

Additional feed onboarding – £450 one-off per feed

Applies to each additional fleet feed or location data source above the first 3 included within the onboarding charge.

### 3. Optional published add-ons

Additional vehicles or tracked assets pack – £2,400 per year

Adds support for up to 200 vehicles or tracked assets to any subscription tier.

Advanced traffic intelligence add-on – £1,800 per year

Provides enhanced traffic prediction, routing intelligence, and assisted optimisation workflows. This add-on is included within the Enterprise subscription.

Private deployment option – £7,200 per year

Provides a dedicated private deployment for buyers requiring a segregated environment.

### 4. Included as standard

Role-based access control, standard audit logging, and service usage dashboards are included within the service.

Standard software support during UK business hours is included.

Navigation model management, route optimisation, and alerting are included within the subscribed service entitlement.

### 5. Pricing assumptions and notes

The annual subscription is billed annually in advance and is based on a minimum contract term of 12 months.

The applicable subscription tier is determined by the number of supported vehicles or tracked assets and user entitlement selected by the buyer.

Where the buyer exceeds an included entitlement, the relevant published add-on charge will apply.

The prices in this document are the published G-Cloud 14 prices for Artificial Intelligence models for Navigation Systems and apply equally to all buyers. Any discounts are published in this document and are available to all buyers on the same basis.
