Submit.com offers a comprehensive grant management platform to assist with grant applications, form building, and grant tracking. Our pricing structure is designed to be transparent, competitive, and tailored to the needs of local authorities, foundations and organisations of all sizes. We aim to provide value-driven solutions that empower organisations to streamline their processes efficiently.

Pricing Overview

- **Pricing basis:** Submit.com is priced per year on two factors only — the number of admin users and the number of multiphase programmes configured on the account. There is no charge based on the number of applications received or value of grants processed..
- **Tiers:** four fixed annual tiers are available; Starter, Pro, Pro+ and Enterprise, each covering a set number of admin users and multiphase programmes at a fixed price. See the table below.
- **Multi-year discount:** a 10% discount applies to the published annual tier price for customers who commit to and prepay a minimum 3-year term. This discount is fixed and applies automatically to any customer meeting the term commitment — no separate quote or negotiation is required.
- **Yearly subscription:** each annual subscription is inclusive of system implementation and standard support for the duration of the subscription term.
- **Additional users and programmes:** extra admin users can be added to any tier at £650 per user per year, and extra multiphase programmes can be added to any tier at £995 per programme per year. These rates are fixed, published and apply automatically, no separate quote or negotiation is required. A customer may instead choose to move up to a higher tier where that is more cost-effective for a larger increase in usage.

All prices are quoted in pounds sterling (GBP) and are exclusive of VAT, which is charged in addition at the prevailing rate.
