## Pricing Document for NHS SCW Geospatial Service Support

## Pricing Document - SCW Geospatial Service

### Our approach

SCW has invested in its people establishing itself as a leader supporting healthcare agencies to achieve their strategic and business operational goals. Our team is comprised of high performing individuals with experience such as programme and project management, certified change management, interoperability, digital technology and information governance. We believe in empowering change; working in partnerships to deliver sustainable solutions across systems.

Our Geospatial Service consultancy and application development are specific to customer requirements and are assessed on a case by case basis. We will prepare and provide a costed proposal for any consultancy engagement based on the experience and knowledge levels applicable for the deliverables and applying the day rates as set out in the table below.
