

Terms and Conditions

G-CLOUD 14

Version 1.0 - May 2024

1. Terms and Conditions

When engaging with G-Cloud 14, the provision and acquisition of services are regulated by three sets of terms and conditions:

1. The G-Cloud / Crown Commercial Service (CCS) Framework Agreement between CCS and Simoda.
2. A Call-off contract between you as the Buyer and Simoda as the Supplier.
3. Vendor-specific Terms and Conditions, if applicable.

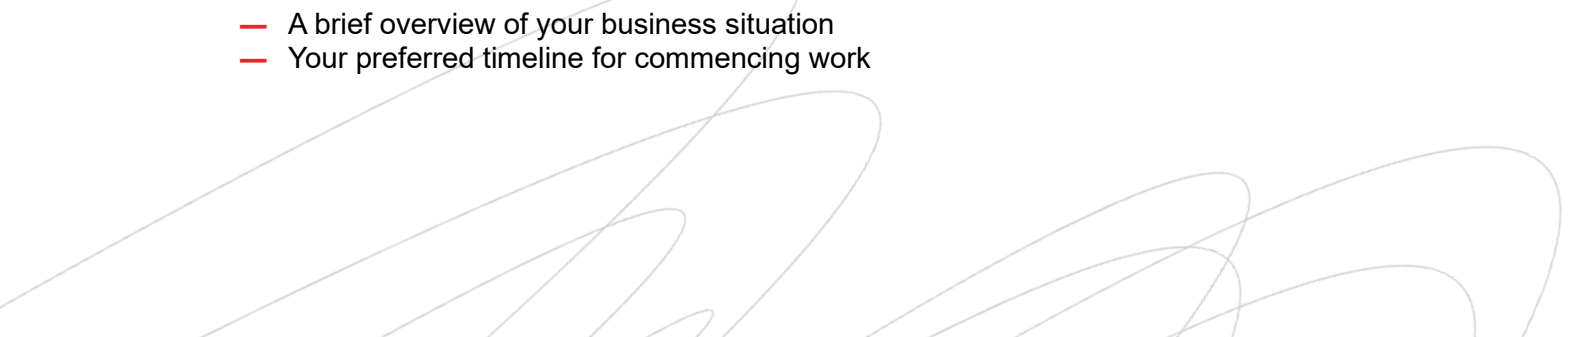

The Framework Agreement terms govern the relationship between the supplier and the framework authority (CCS), and they are non-negotiable.

The Call-off Contract terms control the relationship between you, the public sector Buyer, and Simoda, the G-Cloud 14 Supplier. These terms can be adjusted to align with your specific needs, subject to the supplier's agreement.

Vendor Terms and Conditions come into play when a third-party vendor, such as a software provider, contributes services or software within our overall service or software offering. Having conducted a thorough review of the G-Cloud 14 terms and conditions, we confirm that they comprehensively address our requirements, and no additional terms are necessary.

2. Further Information
