

Azenby Ltd – Service Pricing

Azenby would normally price projects on a case-by-case basis but as the G cloud process requires a day rate we have adopted a simple fixed rate approach.

Azenby does not have any junior staff hence against the SFIA levels it is seen as unlikely that levels 1, 2 ,3 would be appropriate.

Azenby would provide a fixed price for a service deliverable based on these rates and the project scope and risk.
