

Legal Operations Platform

Pricing Document

Commercial in Confidence

one platform. many solutions

A platform based on plug-in architecture, allowing in-house teams or firms to configure the platform their way, under their rules.

Module	Benefit	Features
Workflows and Automation	Configure workflows and automate processes the way you want to, not the way you're made to.	<ul style="list-style-type: none"> • Unlimited workflow customisation • Unlimited automation capabilities • Document automation • Capture all matter information at once • Easily manage legal requests • Automated triage and process streams • Complex approvals for internal sign-off
Matter Management	In-house and law firm teams will be able to collaborate seamlessly through the sharing of tasks, notes and documents, all on the same platform.	<ul style="list-style-type: none"> • Create, allocate & prioritise matters • Project and task management • Microsoft Outlook and Word integrations • Document storage + integration with iManage • Manage capacity and overflow • Demonstrate team value to C-suite
External Counsel	Gain visibility and control over all legal spend, manage scope and budget, spend wisely using logic-based procurement, and communicate more effectively with legal providers.	<ul style="list-style-type: none"> • External matter management • Spend management and reporting • eBilling and rate card compliance • External counsel collaboration space • Budget and scope management • Logic-based procurement • Provider selection and management • Diversity and inclusion firm selection
