

Pricing that makes your teams more efficient

At a minimum, every MyTimeKeeper account needs a Worker, and as long as you have that, you can do what you need to do. Here are some examples to help.

Elon M

Elon owns multiple organisations in various industries for which he has multiple contractors. He does not personally fill out any timesheets but is interested in having visibility of contractor activity across all of his companies at month's end to manage his finances.

Cost:

Free

Bill G

Bill works in IT. His organisation creates multiple products that must be managed separately and staffed by large teams, some of which will work on multiple products. He wants to manage his portfolio as distinct projects and track the workers' activity.

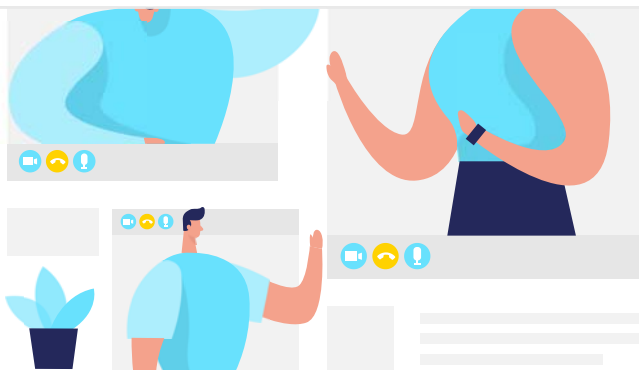

MyTimeKeeper user level:

Project Manager

Cost:

Jeff B

Jeff manages a warehouse. He has numerous contractors working varying hours across multiple geographies. He needs to ensure that his team are delivering the agreed number of hours weekly to manage his operations efficiently.

MyTimeKeeper user level:

Approver

Cost:

Mark Z

Mark only recently started working in the social media industry. He works for multiple clients and must have his timesheets approved by different approvers in multiple organisations weekly. He needs to have visibility on how much time he is billing each of his clients.

MyTimeKeeper user level:

Worker

£60 / Annually
